Each course of study approved for credit toward high school graduation shall include minimum course proficiencies. In order to satisfactorily complete a course of study, a pupil must demonstrate mastery of the established minimum level of course proficiencies. Core course proficiencies shall include, but need not be limited to, proficiencies established by the State Board of Education in the curriculum areas of mathematics; natural or physical sciences; English; social studies; foreign languages; fine, practical, and performing arts; career education; and health, safety, and physical education.

8. A developmental history of the course and, where available, information on its use elsewhere.

The Superintendent shall maintain a current list of all courses of study offered by this district and shall provide each member of the Board with a copy.

2230 CURRICULUM GUIDES

The Board of Education directs the preparation of a guide for each approved course of study in order to direct and assist teaching staff members toward the attainment of goals addressed by that course.

Each curriculum guide will contain, as appropriate to the course of study, content standards; objectives, concepts, and skills to be taught; attitudes and appreciations to be developed; suggested activities designed to achieve the objectives; suggested methods of instruction; performance indicators; evaluation criteria intended to test the extent to which learning objectives have been achieved; and a reading list of supplemental titles for the guidance of teachers.

The curriculum guides will be the basic instructional tool for each course of study.

Each teacher shall conduct the course of study as required by the curriculum guide. Any deviation from the content of the guide must be approved by the Assistant Superintendent in advance of its implementation.

The Superintendent shall be responsible for the preparation of curriculum guides, and shall develop a plan for such preparation that includes the participation of appropriate staff members and resource personnel; the participation of members of the community; the participation of pupils at appropriate grade levels; continuing research in instructional methods, materials, and activities; systematic review of all curriculum guides to ensure their continuing usefulness in achieving goals set by the Board; and a system of administrative review to ensure that curriculum guides are being followed by teaching staff members to the degree of conformity desired by the Board.

All new curriculum guides and revisions of existing guides shall be submitted to the Board for approval before they are implemented.

2260 AFFIRMATIVE ACTION PROGRAM FOR SCHOOL AND CLASSROOM PRACTICES

The Board of Education shall provide equal and bias-free access for all pupils to all school facilities, courses, programs, activities, and services, regardless of race, creed, color, national origin, ancestry, age, marital status, affectional or sexual orientation, gender, religion, disability, or socioeconomic status, by:

1. Ensuring equal and barrier-free access to all school and classroom facilities;
2. Attaining minority representation within each school, which approximates the district's overall minority representation. Exact apportionment is not required, however, the ultimate goal is a reasonable plan achieving the greatest degree of racial balance, which is feasible and consistent with sound educational values and procedures;
3. Utilizing a State approved English language proficiency measure on an annual basis for determining the special needs and progress in learning English of language-minority pupils pursuant to N.J.A.C. 6A:15-1.3(c);
4. Utilizing bias-free multiple measures for determining the special needs of pupils with disabilities, pursuant to N.J.A.C. 6A:14-3.4;

If excluded, the pupil shall be provided with equivalent and timely instruction that may include home instruction, without prejudice or penalty.

The Board of Education shall ensure that the district's curriculum and instruction are aligned to the State's Core Curriculum Content Standards and address the elimination of discrimination by narrowing the achievement gap, by providing equity in educational programs and by providing opportunities for pupils to interact positively with others

2. Ensuring courses shall not be offered separately on the basis of race, creed, color, national origin, ancestry, age, marital status, affectional or sexual orientation, gender, religion, disability, or socioeconomic status;
 - a. Portions of classes which deal exclusively with human sexuality may be conducted in separate developmentally appropriate sessions for male and female pupils, provided that the course content for such separately conducted sessions is the same.
3. Reducing or preventing the underrepresentation of minority, female, and male pupils in all classes and programs including gifted and talented, accelerated, and advanced classes;
4. Ensuring that schools demonstrate the inclusion of a multicultural curriculum in its instructional content, materials and methods, and that pupils understand the basic tenet of multiculturalism;
5. Ensuring that African American history, as well as the history of other cultures, is infused into the curriculum and taught as part of the history of the United States, pursuant to N.J.S.A. 18A:35-1 and the New Jersey Core Curriculum Content Standards; and

The Board of Education shall ensure all pupils have access to adequate and appropriate counseling services. When informing pupils about possible careers, professional or vocational opportunities, the Board shall not restrict or limit the options presented to pupils on the basis of race, creed, color, national origin, ancestry, age, marital status, affectional or sexual orientation, gender, religion, disability, or socioeconomic status. The Board of Education shall ensure that the district's physical education program and its athletic programs are equitable, co-educational, and do not discriminate on the basis of race, creed, color, national origin, ancestry, age, marital status, affectional or sexual orientation, gender, religion, disability, or socioeconomic status, as follows:

1. The district shall provide separate restroom, locker room, and shower facilities on the basis of gender, but such facilities provided for pupils of each gender shall be comparable;
2. 3. The activities comprising such athletic programs shall receive equitable treatment, including, but not limited to, staff salaries, purchase and maintenance of equipment, quality and availability of facilities, scheduling of practice and game time, length of season, and all other related areas or matters.

2270 RELIGION IN THE SCHOOLS

The Board of Education recognizes that religious belief and disbelief are matters of personal conviction rather than governmental authority and the pupils of this district are protected by the First Amendment of the United States Constitution and by Article I, Paragraph 4 of the New Jersey State Constitution from the establishment of religion in the schools. School officials will be neutral in their treatment of religion in the school district, showing neither favoritism toward nor hostility against religious expression. Accordingly, devotional exercises will be permitted in this district. The following activities will be permitted in the school district provided the activity is consistent with current United States Supreme Court decisions regarding the relationship between government and religion: prayer during instructional time; organized prayer groups and activities; religious expression and prayer in classroom assignments; pupil assemblies and extra-curricular events; prayer at graduation; baccalaureate ceremonies; devotional exercises; and other prayer and/or religion related activities. The school district will not permit an activity if the activity advances or inhibits any particular religious expression that is protected by the First Amendment of the United States Constitution.

The Board believes that an understanding of religions and the contributions that religion has made to the advancement of civilization is essential to the thorough education of young people and to their appreciation of a pluralistic society. To that end, the curriculum may be developed to include, as appropriate to the various ages and attainments of the pupils, instruction about the religions of the world.

The Board also acknowledges the degree to which a religious consciousness has enriched the arts, literature, music, and issues of morality. The instructional and resource materials approved for use in the schools of this district frequently contain religious references or concern moral issues that have traditionally been the focus of religious concern. That such materials may, therefore, be religious in nature shall not, by itself, bar their use by the district. The Board directs that teaching staff members employing such materials be neutral in their approach and avoid using them to advance or inhibit religion in any way.

The Board recognizes that religious traditions vary in their perceptions and doctrines regarding the natural world and its processes. The curriculum is chosen for its place in the thorough and efficient education of the children of this district, not for its conformity to religious principles. Pupils should receive unbiased instruction in the schools so that they may privately accept or reject the knowledge so gained in accordance with their own religious tenets.

2310 PUPIL GROUPING

The Board of Education believes that each pupil should be provided with the instruction that will best suit his/her intellectual, physical, emotional, and social capabilities. The Board authorizes the Superintendent to develop a schedule and class organization that will provide for the placement of pupils in instructional groups that will offer them the greatest educational benefit.

The grouping of pupils should be flexible and should take into consideration the age, mental ability, past academic record, emotional needs, physical maturity, and interests of each pupil.

2312 CLASS SIZE

The Board of Education directs that the number of pupils assigned to any one class be governed by considerations of instructional quality and economy of operation.

A desired range for the minimum and maximum number of pupils that shall be assigned to classes shall be established by the Superintendent in accordance with State statutes and administrative code.

The Superintendent shall prepare guidelines for class size. Maximum limits shall take into account the subject matter, type of instruction, ability of pupils, availability of aides, and use of special facilities and equipment and may be waived to accommodate the demands of a temporary increase in enrollment.

Adopted: 23 July 2009

2330 HOMEWORK

The Board believes that homework relevant to material presented in class provides an opportunity to broaden, deepen, or reinforce the pupil's knowledge.

Homework practices are an important part of the educational process and help in the development of good study habits.

The Board encourages the use of interrelated major homework assignments such as term papers, themes, and creative art projects.

Teachers must use discretion in deciding the number and length of assignments.

Study skills are necessary skills to be taught by teachers and reinforced at home.

Homework serves to reinforce learning and gives pupils an additional opportunity to practice skills or to explore related subject matter.

Homework must be an integral part of the curriculum and related to the educational goals of the district.

Purpose

1. To provide time for test preparation;
2. To provide for essential practice in skills;
3. To provide work and study skills;
4. To build enrichment of classroom experience;
5. To provide make-up for missed school instruction;
6. To develop effective independent work habits;
7. To extend class work where necessary to implement the course of study;
8. To provide time for pupils to prepare background information for classroom activities;

9. To provide instruction and use of out-of-school resources (i.e., library, school media centers, museums); and
10. To serve as a communication link between home and school.

Amount of Homework

The amount of time that pupils in the same grade will spend on homework will vary dependent upon individual differences.

It is believed that pupils should be assigned homework on a daily basis including some weekends.

It is conceivable that there may be times when no written homework will be assigned and that there may be times when more homework than stated will be necessary; however, pupils shall be prepared to spend an average of thirty minutes for each subject on a daily basis.

Procedures

Grading and Evaluation of Homework

A teacher making a homework assignment attaches importance to that assignment; therefore, the teacher attaches similar importance to the grading of that assignment.

The teacher checks homework as quickly as possible and affixes a comment and/or assigns appropriate evaluations to all written assignments; therefore, homework becomes a part of the report card grade.

The pupil is responsible for submitting each assignment on its due date, and a penalty will be imposed for a late assignment.

The teacher will accept only the highest quality work - work which is comparable to regular class work.

The teacher will provide discussion time to clarify any misconceptions in the assignment.

The parent(s) or legal guardian(s) will be notified whenever a pupil repeatedly fails to do his/her homework.

Homework During Absences

All class work and homework assignments due to absence are to be made up within a time period specified by the teacher or administrator, not to exceed ten school days unless there are extenuating circumstances.

Homework shall be sent home during periods of absence depending on the medical condition of the pupil and placement on home instruction.

Upon his/her return to school, the pupil will be required by the teacher to make up tests for grading.

The pupil is expected to show initiative in seeking out a teacher to determine what assignments were missed and when they shall be due.

Responsibilities and Roles

Responsibilities of Teachers, Pupils, and Parents

Extra studying helps children at all levels of ability.

For pupils who do three to five hours of homework a week, their grades usually equal those of high ability pupils who do no homework.

Well-designed homework assignments relate directly to class work and extend pupils' learning beyond the classroom.

Homework is most useful when the teacher carefully prepares the assignment, thoroughly explains it, and gives prompt comments and criticism when the work is completed.

Role of the Teacher

The teacher should do the following:

1. Have a definite educational purpose in assigning work;
2. Clearly explain assignments in a manner that enables all pupils to work independently;
3. Encourage pupils to notate or list assignments carefully;

4. Correct, record and return assignments promptly;
5. Encourage pupils to establish standards of neatness, completeness, accuracy, and punctuality;
6. Encourage pupils to effectively use and budget time;
7. Evaluate homework assignments according to the purpose for which they were given;
8. Confer with other teachers of particular pupils as needed to be certain that they are not overburdened with homework; and
9. Give recognition to outstanding work.

Role of the Pupil

The pupil is expected to do the following:

1. Regard homework as a serious undertaking;
2. Maintain a homework assignment pad;
3. Establish a time and location for completing assignments;
4. Gather all books, materials, etc., necessary for completing assignments;
5. Accept full responsibility for completing all homework thoroughly and neatly;
6. Use homework as a study guide for quizzes and tests;
7. Meet all homework due dates;
8. Ask questions concerning homework assignments prior to leaving school and request assistance from a teacher for assignment clarification when necessary; and
9. Familiarize him/herself with the section of these guidelines, entitled "Homework During Absences".

Role of the Parent/Guardian

The parent(s) or legal guardian(s) should do the following:

1. Build respect for education by taking a serious interest in whatever homework is assigned to the child;
2. Give school assignments precedence over the child's outside activities whenever possible;
3. Discourage the child from participating in too many outside activities during the school week;
4. Establish rules with the child concerning telephone calls during the homework period;
5. Establish rules with the child concerning the quality and quantity of television viewed;
6. Provide a quiet, comfortable work area for the child;
7. Designate an uninterrupted work period for the child;
8. Help the child to budget time properly for immediate and long-range assignments;
9. Encourage the child to work independently but provide help when necessary;
10. Encourage the child to use the school media center or public library as a resource;
11. Take the responsibility for writing an explanation to the teacher when a child cannot do a particular homework assignment; and
12. Set aside some time on a daily basis for child to read for pleasure.

Adopted: 23 July 2009

2340 FIELD TRIPS

For purposes of this policy, a class or field trip shall be defined as any journey by a group of pupils away from the school premises, under the supervision of a teacher, which is an integral part of an approved course of study and conducted for the purpose of affording a first-hand educational experience not available in the classroom.

The Board shall consider field trips that are included in curriculum guides to have been approved in advance.

1. All trips not listed in the curriculum guide must be individually approved by the Board.
2. Times and locations of field trips shall not be posted on any district web sites.

The Board will make school facilities available and provide appropriate staff for the conduct of social events within the school facilities that have been approved by the Superintendent and/or the Principal.

As voluntary participants in school social events and class trips, pupils shall be held responsible for compliance with rules set forth for their conduct.

1. Infractions of these rules will be subject to the same disciplinary measures as are applied during the regular school program.
2. Participation in school events is not a right and may be denied to any pupil who has demonstrated a disregard for school rules.

2360 USE OF TECHNOLOGY

The Board of Education recognizes the use of technology in the educational process is an essential part of the schooling experience. Technology is to be viewed as a resource to enhance the learning process among other resources available to teachers and pupils. In addition, technology can be used to enhance the administration of the schools and the district. In order to provide direction and meaning to the use of technology as an instructional resource, the Board encourages and supports staff use of technology as a component of the learning process.

For purposes of this policy “technology” includes, but is not limited to, the use of computers and computer peripherals, communications networks, access to databases and libraries of information and the integration of audio, video, multimedia devices and media for purposes of teaching and learning.

The Superintendent, in consultation with teaching and support staff, shall recommend to the Board the acquisition of appropriate technology to best implement the curricular, instructional, and administrative program of the school district. The Superintendent shall prepare a technology plan for the school district to encompass the following:

Curricular, Instructional and Administrative Need

The technology plan shall define the curricular, instructional and administrative need for technological equipment and media for the district.

In-service Education

The Board shall provide opportunities for school staff to participate in in-service programs on hardware or software programs to be used in the execution of educational and administrative tasks. In-service programs may be provided in or out of the district.

Standards, Codes and References

All technology installations shall conform to the industry standards and applicable federal, State and local statutes and codes.

Facilities Planning

In all facilities projects involving new constructions, additions, and renovations the Superintendent or designee shall ensure the plans include provisions for current and future technology needs in terms of the structural, electric/electronic, mechanical, acoustical and visual systems of the building(s). All educational specifications shall include features required for the use of instructional technology.

Computers

The school district will provide support or maintenance agreements for specified brands of computers. All other computers purchased or donated will be subject to repair only when non-allocated funding is available and therefore may remain unrepaired until funding is available.

Computer Software Acquisition and Upgrading

The school district will only support the specified upgrades and training. Staff members shall not purchase software that has not been included on a list of specified software or has been approved by the Technology Department Manager.

The Superintendent will recommend the purchase of upgrades to software as needed. An evaluation of upgrades shall be made by appropriate personnel and no upgrade shall be purchased without the express approval of the Technology Department Manager.

Site Licenses

In the case where more than one copy of a software program is required, the Technology Department Manager shall attempt to acquire or negotiate a site license with the software developers. In the event a site license is not possible, vendors shall be sought who will provide multiple copies at a discounted cost.

Software Copyright

All employees shall strictly adhere to the copyright laws of the United States. No software shall be copied and/or distributed except in accordance with these laws. All software placed on media workstations or any network with public access shall be copy protected by the Technology Department Manager, who shall assure that individuals who have access to such programs shall not copy them without authorization.

ACCEPTABLE USE OF COMPUTER NETWORK/COMPUTERS AND RESOURCES (M)

The Board of Education recognizes as new technologies shift the manner in which information is accessed, communicated, and transferred; these changes will alter the nature of teaching and learning. Access to technology will allow pupils to explore databases, libraries, Internet sites, and bulletin boards while exchanging information with individuals throughout the world. The Board supports access by pupils to these information sources but reserves the right to limit in-school use to materials appropriate for educational purposes. The Board directs the Superintendent to effect training of teaching staff members in skills appropriate to analyzing and evaluating such resources as to appropriateness for educational purposes.

The Board also recognizes technology allows pupils access to information sources that have not been pre-screened by educators using Board approved standards. The Board therefore adopts the following standards of conduct for the use of computer networks and declares unethical, unacceptable, or illegal behavior as just cause for taking disciplinary action, limiting or revoking network access privileges, and/or instituting legal action.

The Board provides access to computer networks/computers for educational purposes only. The Board retains the right to restrict or terminate pupil access to computer networks/computers at any time, for any reason. School district personnel will monitor networks and online activity to maintain the integrity of the networks, ensure their proper use, and ensure compliance with Federal and State laws that regulate Internet safety.

Standards for Use of Computer Networks

Any individual engaging in the following actions when using computer networks/computers shall be subject to discipline or legal action:

- A. Using the computer networks/computers for illegal, inappropriate or obscene purposes, or in support of such activities. Illegal activities are defined as activities that violate Federal, State, local laws and regulations. Inappropriate activities are defined as those that violate the intended use of the networks. Obscene activities shall be defined as a violation of generally accepted social standards for use of publicly owned and operated communication vehicles.
- B. Using the computer networks/computers to violate copyrights, institutional or third party copyrights, license agreements or other contracts.
- C. Using the computer networks in a manner that:
 1. Intentionally disrupts network traffic or crashes the network;

Internet Safety Protection

As a condition for receipt of certain Federal funding, the school district shall be in compliance with the Children's Internet Protection Act, the Neighborhood Children's Internet Protection Act, and has installed technology protection measures for all computers in the school district, including computers in media centers/libraries. The technology protection must block and/or filter material and visual depictions that are obscene as defined in Section 1460 of Title 18, United States Code; child pornography, as defined in Section 2256 of Title 18, United States Code; are harmful to minors including any pictures, images, graphic image file or other material or visual depiction that taken as a whole and with respect to minors, appeals to a prurient interest in nudity, sex, or excretion; or depicts, describes, or represents in a patently offensive way, with respect to what is suitable for minors, sexual acts or conduct; or taken as a whole, lacks serious literary, artistic, political, or scientific value as to minors.

This Policy also establishes Internet safety policy and procedures in the district as required in the Neighborhood Children's Internet Protection Act. Policy 2361 addresses

access by minors to inappropriate matter on the Internet and World Wide Web; the safety and security of minors when using electronic mail, chat rooms, and other forms of direct electronic communications; unauthorized access, including “hacking” and other unlawful activities by minors online; unauthorized disclosures, use, and dissemination of personal identification information regarding minors; and measures designed to restrict minors’ access to materials harmful to minors.

In accordance with the provisions of the Children’s Internet Protection Act, the Superintendent of Schools or designee will develop and ensure education is provided to every pupil regarding appropriate online behavior, including pupils interacting with other individuals on social networking sites and/or chat rooms, and cyberbullying awareness and response.

The Board will provide reasonable public notice and will hold one annual public hearing during a regular monthly Board meeting or during a designated special Board meeting to address and receive public community input on the Internet safety policy - Policy and Regulation 2361. Any changes in Policy and Regulation 2361 since the previous year’s annual public hearing will also be discussed at a meeting following the annual public hearing.

The school district will certify on an annual basis, that the schools, including media centers/libraries in the district, are in compliance with the Children’s Internet Protection Act and the Neighborhood Children’s Internet Protection Act and the school district enforces the requirements of these Acts and this Policy.

Consent Requirement

No pupil shall be allowed to use the school districts’ computer networks/computers and the Internet unless they have filed with the Principal’s Office a consent form signed by the pupil and his/her parent(s) or legal guardian(s).

Violations

Individuals violating this Policy shall be subject to the consequences as indicated in Regulation 2361 and other appropriate discipline, which includes but are not limited to:

Audio/Video

All audio and/or video materials shall be used in accordance with the copyright laws of the United States. Teachers, pupils, or staff who create audio or video materials containing the voices or images of the individuals involved shall obtain proper releases from those individuals, their parent(s) or legal guardian(s) for instructional use within the school.

Informing Parents, Legal Guardians and Interested Parties

Upon request, the Building Principal shall make available to parent/legal guardians the computer hardware and software used in the district in order that a computer purchased privately for home use may be compatible with the computer and software the pupil uses in the school setting.

Technology Coordination

The Board shall appoint a Technology Department Manager to assure the technology needs of the district are met in the most efficient manner possible at the lowest costs available to meet specified needs.

Broadcast Rights and Copyrights

The Board specifically retains the Broadcast rights and copyrights to all materials created by employees of the Board as part of their responsibilities to the Board. Any financial remuneration for the use of such materials shall be retained by the Board.

Computer Security

The Technology Department Manager shall develop security procedures to include, but not be limited to, the following areas:

1. Physical Security of Equipment

All computer equipment shall be maintained in a secure manner appropriate to its location.

2. Data Security

- a. Back-up procedures for system files, libraries, and data shall be practiced in a timely fashion.
- b. Disaster recovery plans shall be kept up-to-date at all times.
- c. Password protection shall be in place and updated periodically.
- d. Resource security shall be in place to prevent unauthorized access to system files, libraries, and data.

3. Employee Training

All new employees having, as part of their job responsibilities, access to computers and information systems will be trained in the proper security procedures outlined above.

All employees having, as part of their job responsibilities, access to computers and information systems will be kept up-to-date on current security procedures for equipment and data.

4. Transaction Audit Trail

Appropriate procedures will be maintained in order to monitor system activity and users, as necessary.

5. Security Officer

The Superintendent shall designate the Technology Department Manager as the district's Computer Security Officer to monitor system security procedures.

2411 GUIDANCE COUNSELING

The Board of Education requires that a planned program of guidance and counseling be an integral part of the educational program of the schools to assist pupils in making and implementing informed educational and occupational choices including academic, career and personal/social development.

A program of guidance and counseling, including developmental career guidance and exploration, shall be offered to all pupils in this school district and shall be conducted entirely by teaching staff members certified as guidance personnel.

The Superintendent is directed to implement a guidance program that carries out the purposes of this policy and:

1. Involves teaching staff members at all appropriate levels;
2. Honors the individuality of each pupil;
3. Is integrated with the total educational program;
4. Is coordinated with available resources of the community;
5. Provides for cooperation of school staff with parent(s) or legal guardian(s) and shares parents' or legal guardians' concern for the development of their children;
6. Provides for the means of sharing information among appropriate staff members in the pupil's interest;
7. Is available equitably to all pupils and prohibits biased counseling and the use of materials that discriminate among pupils on the basis of their race, color, creed, religion, national origin, ancestry, age, marital status, affectational or sexual orientation or sex, social or economic status, or disability; and
8. Establishes a referral system that utilizes all the aid the schools and community offer, guards the privacy of the pupil, and monitors the efficacy of such referrals.

HOME INSTRUCTION DUE TO HEALTH CONDITION (M)

The Board of Education shall provide instructional services to an enrolled student, whether a general education student in Kindergarten through grade twelve or special education student age three to twenty-one, when the student is confined to the home or another out-of-school setting due to a temporary or chronic health condition or a need for treatment that precludes participation in their usual education setting, whether general or special education.

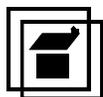

A parent's request for home instruction shall include a written determination from the student's physician documenting the projected need for confinement at the student's residence or other treatment setting for more than ten consecutive school days or twenty cumulative school days during the school year. The written determination from the student's physician shall be forwarded to the school physician, who shall either verify the need for home instruction or provide reasons for denial. The parent shall be notified concerning the school physician's verification or reasons for denial within five school days after receipt of the written determination by the student's physician.

The school district shall be responsible for the costs of providing instruction in the home or out-of-school setting either directly, or through online services, including any needed equipment, or through contract with another district Board of Education, Educational Services Commission, Jointure Commission, or approved clinic or agency. The school district shall provide instructional services within five school days after receipt of the school physician's verification or, if verification is made prior to the student's confinement, during the first week of the student's confinement to the home or out-of-school setting.

The home or out-of-school instruction shall meet the minimum standards as required in N.J.A.C. 6A:16-10.1(c). The school district shall establish a written plan for delivery of instruction and maintain a record of delivery of instructional services and student progress. The teacher providing instruction shall be a certified teacher. The teacher shall provide instruction for the number of days and length of time sufficient to continue the student's academic progress and dependent upon the student's ability to participate.

For a student with disabilities, the home instruction shall be consistent with the student's Individualized Education Plan (IEP) to the extent appropriate, and shall meet the Core Curriculum Content Standards. When the provision for home instruction for a student with disabilities will exceed thirty consecutive school days in a school year, the IEP team shall convene a meeting to review and, if appropriate, revise the student's IEP.

For a student without disability, the home instruction shall meet the Core Curriculum Content Standards, and the requirements of the Board for promotion to the next grade level. When the provision for home instruction for a student without disability will

exceed sixty calendar days, the school physician shall refer the student to the Child Study Team for evaluation, pursuant to N.J.A.C. 6A:14.

The Board reserves the right to withhold home instruction when the reason for the student's confinement is such as to expose a teacher to a health hazard or dangerous home situation; when a parent or other adult twenty-one years of age or older, who has been designated by the parent, is not present during the hours of instruction; or when the condition of the student is such as to preclude benefit from such instruction.

Students on home instruction will be accounted for on the attendance register as required by the Department of Education. The name of a student on home instruction will not be released at a public Board meeting or placed in a public record.

2414 PROGRAMS FOR PUPILS AT RISK

The Board of Education recognizes that certain conditions place children at risk of not acquiring the knowledge, skills, behaviors, and attitudes necessary for school success, school completion, and successful functioning as an adult in society.

A “pupil at risk” means a pupil who is in danger of failure to achieve the New Jersey Core Curriculum Content Standards and the high school graduation requirements or dropping out of school because of specific cognitive, affective, economic, social, and/or health needs. The conditions that may place a pupil at risk include the pupil's failure to acquire the essential skills needed to stay on grade level or the pupil's performance below minimum levels of proficiency; history of adjustment or behavioral problems; placement on long-term suspension for violation of school rules; history of poor school attendance; being limited in English language proficiency; being disruptive or disaffected; pregnancy or parenthood; failure to qualify for promotion or graduation; condition of poverty as defined by his/her eligibility for free meals or free milk and/or exhibiting other characteristics identified by the Board.

Programs and services for pupils at risk shall meet the goals of:

1. Enhancing the health, self-esteem, and acquisition of the life skills necessary for age-appropriate development and productive functioning in the school setting and society;
2. Identifying and assisting pupils who are not meeting standards for behavior and achievement in areas such as attendance, conduct, and mastery of the curriculum, as well as performing below state minimum levels of proficiency; and
3. Improving the school climate so that pupils experience school as a safe, supportive, and disciplined place where academic and interpersonal growth and learning can take place.

Programs and services for pupils at risk may be offered during the regular school day, beyond the regular school day, or during the summer. Any such programs and services that do not require the services of a teaching staff member or cannot be reasonably accommodated in the school setting may be delivered by qualified persons who are not necessarily certified but are supervised by appropriately certified teaching staff members.

The Board shall provide staff training necessary to implement the programs and services for pupils at risk.

2415 NO CHILD LEFT BEHIND PROGRAMS

The No Child Left Behind Act (NCLB) of 2001 is a reauthorization of the Elementary and Secondary Education Act (ESEA)/Improving America's Schools Act (IASA) 1994, providing funds to help all New Jersey's school children achieve, at a minimum, proficiency in the State standards. NCLB embodies four key principles or pillars of education reform: accountability, flexibility, choice, and methodology. The Board of Education elects to augment the instructional program of pupils by projects supported by Federal funds allocated under NCLB and the district will comply with the requirements of all the programs authorized by NCLB.

The district may be eligible for several grant programs funded through NCLB, including, but not limited to, Title I through Title VI. Many of the Titles of NCLB have several parts and subparts that provide a funding source for specific purposes.

Application Procedure

The district will submit an annual No Child Left Behind Consolidated Formula Subgrant Application to the New Jersey Department of Education (NJDOE). The school district's application shall include all information required by the NJDOE and NCLB for the district to be considered for funding under NCLB.

Covered Programs

The intent of NCLB is that all children will meet State academic achievement standards to reach their potential through improved programs. The NCLB Consolidated Formula Subgrant includes the following programs:

1. Title I, Part A provides the programs and resources for disadvantaged students to meet this intent. It requires the State and the district to close the achievement gap by placing a highly qualified teacher in every classroom, improving the qualifications of paraprofessionals who work with disadvantaged students, and using instructional practices that have proven to be effective.

2. Title I, Part D serves neglected and delinquent youth in institutions, community day programs, and correctional facilities to assure they also attain high academic levels of performance.
3. Title II, Part A provides the resources for improving teacher and Principal quality and increasing the number of highly qualified teachers and Principals in classrooms and schools, thereby raising student achievement in the academic subjects. It focuses on preparing, training, and recruiting high-quality teachers and Principals and requires the State to develop plans with annual measurable objectives that will ensure all teachers teaching in core academic subjects are highly qualified by the end of the 2005-2006 school year.
4. Title II, Part D facilitates comprehensive and integrated educational technology strategies that target the specific needs of individual schools. It improves student academic achievement through the use of technology in elementary and secondary schools, while addressing the digital divide such that every student is technologically literate by the end of eighth grade. Effective integration of technology resources and systems with teacher training and curriculum development are encouraged in order to identify and showcase best practices in educational technology.
5. Title III, Part A focuses on the teaching of English to limited English proficient (LEP) children, including immigrant children and youth.
6. Title IV, Part A provides resources for fostering a safe and drug-free learning environment that supports academic achievement.
7. Title V, Part A provides a flexible source of funding to help districts in the development and implementation of various innovative reform initiatives.
8. Title VI, Part B addresses the unique needs of rural school districts.
9. Title IX covers the general provisions applicable to some/all of the programs.

Throughout NCLB, the use of solid research to improve teaching and learning as well as student behavior is required and promoted, and parent(s)/legal guardian(s) are provided with information and options to improve the educational opportunities provided for their children. The emphasis on scientifically based methodology encourages the use of teaching techniques and practices that are founded on research and proven to produce positive results.

Title I

The largest Federal program supporting elementary and secondary education is Title I. NCLB strengthens Title I requirements for the State's assessments, accountability system, and support for school improvement. The law also establishes minimum qualifications for teachers and paraprofessionals in Title I programs.

The school district must use the best available measure for identifying children from low-income families to: identify eligible school attendance areas, determine the ranking of each area, and to determine allocations as identified in the Title I guidelines and regulations.

The school district will offer Title I services to eligible children enrolled in private elementary and secondary schools. The services and benefits will be equitable in comparison to services and benefits for participating public school children.

The school district will provide the New Jersey Department of Education assurances it will provide the maximum coordination between the Title I program, the regular school program, and services provided by other programs for specialized populations. The Title I program will consider the special needs of homeless children, migrant children, children with disabilities and limited English proficient (LEP) children. Title I funds will be reserved so that migrant children who are otherwise eligible to receive Title I services, even if they arrive during the school year, are served.

The school district will offer a Target Assistance I program.

Target Assistance Program

Schools that are not eligible for (or do not choose to operate) school-wide Title I programs must use Title I funds to provide targeted services to low-achieving students. A Target Assistance program must be established in accordance with

the Title I guidelines and regulations and the New Jersey Department of Education.

Academic Standards, Academic Assessments, and Accountability

The district will comply with the requirements as outlined in Policy 2415.01 - Academic Standards, Academic Assessments, and Accountability in accordance with the NJDOE and NCLB.

Fiscal Responsibility

The district will comply with the requirements as outlined in Policy 2415.02 Title I – Fiscal Responsibilities in accordance with the NJDOE and NCLB.

Staff

The district will comply with the requirements as outlined in Policy 2415.03 – Highly Qualified Teachers in accordance with the NJDOE and NCLB. In addition, the district will ensure all paraprofessionals meet the requirements as required by NCLB and as outlined in Policy 4125 – Employment of Support Staff Members.

Parental Involvement

The district will comply with the requirements as outlined in Policy 2415.04 – Parental Involvement in accordance with the NJDOE and NCLB.

Pupil Surveys, Analysis, and/or Evaluations

The Protection of Pupil Rights Amendment (PPRA) applies to school districts that receive Federal funding from the United States Department of Education. The district will comply with the requirements as outlined in Policy 2415.05 - Pupil Surveys, Analysis, and/or Evaluations in accordance PPRA.

Unsafe School Choice Option

In the event there is a school in the district designated as Persistently Dangerous in accordance with the Victims of Violent Criminal Offenses as outlined in NCLB, the district will comply with the requirements of Policy 2415.06 – Unsafe School Choice Option in accordance with the NJDOE and NCLB.

Property

Property acquired through Title I funds for use in public or private schools will be acquired in accordance with the Public School Contracts Law, will be held in title by the Board of Education, and will not be used for other purposes so long as it is required in the Title I program. Property no longer required for Title I purposes will be used for other, similarly funded projects or disposed of in accordance with State and Federal guidelines.

Capital Expenses

The Superintendent will assure the district abides by New Jersey's Public Contracts Law; consults appropriate private school officials prior to making any decisions regarding capital expenses; ensure funds that are received to cover capital expenses provide equitable Title I services to private school pupils; ensure accounts for any capital funding is separately maintained; **and** assure lease purchase agreements are consistent with applicable statute and administrative code.

Post-Award Requirements

The school district will maintain all project records for five years following the completion of the activity for which the funds were used. The school district will prepare and submit all reports as required by the State Department of Education in a timely manner.

Supplement, Not Supplant

Grant funds provided under Federal programs, including No Child Left Behind funding, shall supplement, not supplant other non-Federal funds that are available to provide programs and services to eligible students, unless otherwise provided in the grant program.

State Waiver from Certain Provisions of No Child Left Behind (NCLB)

The State of New Jersey may receive a waiver(s) from certain provisions of NCLB from the United States Department of Education. A waiver(s) may affect the applicability of the school district's NCLB policies and/or regulations. In the event a waiver(s) affects the applicability of Board of Education NCLB policies and/or regulations, the waiver provisions shall

supersede current Board policies and/or regulations and the school district shall comply with the requirements as outlined by the New Jersey Department of Education in accordance with the waiver(s) application and approval(s) from the United States Department of Education.

Evaluation

2415.01 ACADEMIC STANDARDS, ACADEMIC ASSESSMENTS AND ACCOUNTABILITY

The No Child Left Behind Act of 2001 (NCLB), §1111, requires New Jersey to have an accountability system to include challenging academic content and academic achievement standards. New Jersey's Core Curriculum Content Standards define those skills needed for children to be successful in the twenty-first century economy. These skills are measured by State assessments and New Jersey's accountability design determines a school's progress toward meeting established standards. This progress measure is referred to as Adequate Yearly Progress (AYP).

Testing Requirements

In accordance with NCLB, beginning in the 2002-2003 school year, schools must administer language arts/literacy and mathematics tests in three grade spans: grades 3 through 5, grades 6 through 8, and grades 10 through 12 in all schools. By the 2005-2006 tests must be administered every year in grades three through eight and one year in grades ten through twelve. Beginning in the 2007-2008 school year, science achievement must also be tested. At least 95% of each pupil group must participate in the assessment process. Pupils who have been enrolled in the school for less than one academic year are not included in the accountability process. Pupils with disabilities who are moved from their neighborhood school to receive services at another school will be included in their home school's accountability process. Pupils with limited English proficiency must also be assessed, with accommodations. Pupil progress must also be assessed by pupil group (pupils from major racial and ethnic groups, economically disadvantaged pupils, pupils with disabilities, and pupils with limited English proficiency) in accordance with the requirements of NCLB.

Adequate Yearly Progress (AYP)

The New Jersey Department of Education (NJDOE) will establish starting points for AYP and incremental increases in expectations for all schools with the goal of all schools and pupil groups reaching 100 percent proficiency in language arts/literacy, math, and science by the 2013-2014 school year.

School Level Accountability

Each school's proficiency statistics in each area and pupil subgroup will be compared to the State-wide benchmarks. Results for subgroups with fewer than the number of pupils designated by the NJDOE will be suppressed or excluded from the analysis. Intervals of confidence of 90% will be applied to school results. If a subgroup is identified as not having met AYP, "safe harbor" may be reached if the percentage of pupils not meeting AYP has decreased by 10% from the previous school year.

ACADEMIC STANDARDS, ACADEMIC ASSESSMENTS AND ACCOUNTABILITY (M)

2415.01 ACADEMIC STANDARDS, ACADEMIC ASSESSMENTS AND
ACCOUNTABILITY

M

The No Child Left Behind Act of 2001 (NCLB), a reauthorization of the Elementary and Secondary Education Act (ESEA), requires New Jersey to implement a single accountability system to include challenging academic content and academic achievement standards. The accountability requirements under NCLB were built on the foundation of the former Improving America's Schools Act (IASA).

To meet the Federal requirements, New Jersey has adopted the New Jersey Single Accountability System. State assessments in language arts literacy and mathematics are based on the New Jersey Core Curriculum Content Standards. All pupils enrolled in New Jersey public schools, plus all pupil subgroups, must meet the proficiency benchmarks to ensure the goal of 100% proficiency. Pupils must score either "proficient" or "advanced proficient" on the assessments to be counted toward meeting the benchmarks.

Schools are evaluated using adequate yearly progress (AYP) indicators. Pupil achievement is determined by grade span (Elementary School – grades three through five, Middle School – grades six through eight, and High School – grades nine through twelve) and in each content area. There are indicators that must be met (including participation and proficiency rates) plus a secondary indicator. A safe harbor calculation is applied to measure significant progress if the benchmark is missed. When a school does not meet AYP for two consecutive years in the same content area, it is designated as a "school in need of improvement."

AYP shall be calculated for all New Jersey schools under the provisions of NCLB. Schools that do not meet AYP as defined under NCLB are placed into one of the following categories. Title I schools in need of improvement must implement the sanctions for each category.

Year 1 - Early Warning: A school that does not make AYP for one year is placed into "early warning" status.

Year 2 - In Need of Improvement/School Choice: A school that does not make AYP for two consecutive years in the same content area is designated as a "school in need of improvement." Parents/legal guardians shall be promptly notified if their child's school has been designated as in need of improvement. For Title I schools certain interventions apply, including intradistrict school choice (or supplemental educational services if choice is not available) and development of a school improvement plan (Title I Unified Plan). The district must offer the school

ACADEMIC STANDARDS, ACADEMIC ASSESSMENTS AND ACCOUNTABILITY (M)

technical assistance to address the areas that caused the school to be in need of improvement. Parents/legal guardians shall be notified of their right to request intradistrict public school choice and parents/legal guardians of eligible pupils shall be notified of the availability of supplemental educational services, if choice is not available, including the provider list Web address.

Year 3 - In Need of Improvement/Supplemental Educational Services (SES): A school that does not make AYP for three consecutive years in the same content area shall continue to be identified as a “school in need of improvement.” The Title I school must continue to offer intradistrict school choice and must also offer SES to eligible pupils. Technical assistance must continue to be offered by the district, parents must receive notification of the school’s status, and the school improvement plan (Title I Unified Plan) is updated annually. Parents/legal guardians of eligible pupils shall be notified of the availability of supplemental educational services, if choice is not available, including the provider list Web address.

The New Jersey Department of Education (NJDOE) offers school support by engaging a team of experienced professionals to conduct an extensive school review called Collaborative Assessment and Planning for Achievement (CAPA). The CAPA team interviews stakeholders and staff, reviews school and district documents, and conducts on-site observations to develop a report that contains recommendations for school improvement, which then becomes part of the Title I Unified Plan.

Year 4 - Corrective Action: A school that does not make AYP for four consecutive years in the same content area is identified as a school in corrective action. The Title I school must continue to offer intradistrict school choice and SES, notify parents of the school’s status, revise its school improvement plan (Title I Unified Plan), and receive technical assistance from the district and the NJDOE.

The district must take at least one of the following corrective actions:

1. Provide, for all relevant staff, appropriate, scientifically research-based professional development that is likely to improve academic achievement of low-performing pupils.
2. Institute a new curriculum grounded in scientifically-based research and provide appropriate professional development to support its implementation.

ACADEMIC STANDARDS, ACADEMIC ASSESSMENTS AND ACCOUNTABILITY (M)

3. Extend the length of the school year or school day.
4. Replace the school staff who are deemed relevant to the school not making adequate progress.
5. Significantly decrease management authority at the school.
6. Restructure the internal organization of the school.
7. Appoint one or more outside experts to advise the school how to revise and strengthen the improvement plan it created while in school improvement status and how to address the specific issues underlying the school's continued inability to make AYP.

Year 5 - Planning for Restructuring: A Title I school that does not make AYP for five consecutive years in the same content area must plan to restructure. The restructuring plan is implemented at the beginning of the following school year if the school continues to miss AYP benchmarks and moves to Year 6. During the planning year, the Title I school must continue to offer intradistrict school choice and SES, notify parents of the school's status and invite parent input during the restructuring process, and receive technical assistance from the district and the NJDOE. The technical assistance design for a school being restructured emphasizes the following:

1. The importance of improving instruction by using strategies grounded in scientifically-based research so that all children in the school achieve proficiency in the core academic subjects of language arts and mathematics.
2. The importance of analyzing and applying data in decision-making.

The restructuring plan must include one of the following alternative governance systems for the school as outlined by NCLB regulations and consistent with New Jersey practice and statutes:

1. Implement any major restructuring of the school's governance that is consistent with the principles of restructuring as set forth in the No Child Left Behind Act.

ACADEMIC STANDARDS, ACADEMIC ASSESSMENTS AND ACCOUNTABILITY (M)

2. Re-open the school as a public charter school as defined by State statute and regulation (N.J.S.A. 18A:36A-1 et seq. and N.J.A.C. 6A).
3. Replace all or most of the school staff, which may include the Principal, who are relevant to the school's inability to make adequate progress (consistent with existing contractual provisions and applicable statutory protections in Title 18A).

Year 6 – Restructuring-1: A Title I school that does not make AYP for six consecutive years in the same content area must implement the approved restructuring plan. The Title I school must continue to offer intradistrict school choice and SES, notify parents of the school's status and invite parent input and support during the implementation process, and receive technical assistance from the district and the NJDOE. Technical assistance is critical to help school staff remain focused on increasing pupil achievement while the school is adjusting to potentially radical changes in its administration and governance structures. A CAPA visit will occur at the school to determine the fidelity of implementation of the restructuring plans and to review the governance structure of the school.

Year 7 (and over) – Restructuring-2 (and over): If the school has not made AYP for seven or more consecutive years, the NJDOE will meet with school and district administrators to continually review implementation of the restructuring plan/Title I Unified Plan. Benchmark meetings with NJDOE staff, the school, and the district will occur twice a year to assess and support implementation of the school improvement plan.

Removal from Early Warning/Improvement Status: To be removed from early warning or improvement status, the school must make AYP for two consecutive years in the content area that caused the school to go into status, providing the school makes AYP in the other content areas. The first year of making AYP is a “hold year” and the school does not progress to the next sanction level, but must continue to implement current interventions. If the school does not make AYP the year following “hold,” the school goes back into improvement status at the level prior to the hold year.

2415.03 HIGHLY QUALIFIED TEACHERS

Introduction

The No Child Left Behind Act (NCLB) of 2001 requires all teachers be or become highly qualified in the core academic content area(s) they teach. New, newly hired and veteran teachers in non-Title I schools and veteran teachers in Title I school-wide and targeted assistance programs must satisfy the definition of a Highly Qualified Teacher by the end of the 2005-2006 school year. New and newly hired teachers in Title I schools must satisfy the definition by September 2003.

Definitions

“Equivalent of an undergraduate major” is a 30-credit coherent sequence of courses in a subject field that includes study at the introductory, intermediate and advanced levels.

“New Jersey HOUSE Standard” is New Jersey’s High Objective Uniform State Evaluation Standard to provide teachers with an alternative means of demonstrating their content knowledge for the core academic subject(s) they teach. The New Jersey HOUSE Standard is the means by which teachers can document their content expertise in the core academic subject(s) they teach. The New Jersey HOUSE Standard uses a Content Knowledge Matrix to document college coursework, professional activities, teaching activities, and successful teaching performance.

“New to the Profession” are teachers in their first year of teaching and hired after the first day of school in the 2002-2003 school year. In Title I schools, these teachers must be highly qualified at the time of hire. In non-Title I schools, these teachers must be highly qualified as of the end of the 2005-2006 school year.

“Newly hired teachers” are teachers with prior teaching experience who are either returning to teaching after an absence or are changing school districts. Teachers changing building, class or grade-level assignments within their district are not considered newly hired. In Title I schools, these teachers must be highly qualified at the time of hire. In non-Title I schools, these teachers must be highly qualified by the end of the 2005-2006 school year.

“School Organization” is the most typical organizational structures in New Jersey and are as follows:

- Elementary schools (K-5, K-6, K-8) in which classes are self-contained and teachers provide instruction in the full range of content to a single class, all day.

- Middle schools (5-8, 6-8) are those in which classes are departmentalized and teachers provide instruction in one or more content areas to different classes of pupils throughout the day.
- Secondary schools (9-12) are those in which classes are departmentalized and teachers provide instruction in one or more content areas to different classes of pupils throughout the day.

“Teacher – Bilingual Education” is a bilingual teacher that provides direct instruction in one or more content areas in pupils’ native language and English as a replacement for content instruction provided in a classroom where only English is spoken. The teacher must satisfy the federal definition of a Highly Qualified Teacher for the content area(s) and level(s) they teach.

“Teacher – ESL” is an ESL teacher that provides daily support to pupils with limited English proficiency and may co-teach classes with a Language Arts Literacy instructor. ESL teachers may also provide direct instruction in English, reading or language arts. When ESL teachers provide direct instruction, they must satisfy the federal definition of a Highly Qualified Teacher based on the grade level of the content/curriculum they teach rather than the chronological age of their pupils.

“Teaching Assignment” is an assignment teaching in the grade level and/or core academic subject area. It is not the class schedule. Multiple sections of the same course (i.e., three classes of freshman composition or two periods of world history) count as one teaching assignment. Teaching all subjects to one class of elementary or special education (elementary) pupils all day (i.e., 5th grade, 2nd grade) is one assignment.

“Testing Option” provides the teacher an opportunity to submit a passing score on a State licensing exam taken in New Jersey or a passing score on a State licensing exam taken in another State as verification they have satisfied the federal definition of a Highly Qualified Teacher. Examples of appropriate tests include: The National Teacher Exam (NTE); the Praxis II Elementary Education: Content Knowledge Test; the Praxis II Content Knowledge Test(s) for the relevant content area teaching assignment(s). The Praxis II series of Content Knowledge Tests for the middle school level will become available in New Jersey during the 2003-2004 school year.

“Undergraduate Major” is defined as thirty credits of content coursework within the subject field listed as the major.

“Veteran Teachers” in Title I schools are teachers who were hired before the first day of school in 2002-2003. These teachers may use the New Jersey HOUSE Standard to satisfy the federal definition of a Highly Qualified Teacher. Experienced teachers who are newly hired may also use the New Jersey HOUSE Standard. “Veteran Teachers” in non-Title I schools are teachers who are hired before the first day of school in 2005-2006. These teachers may use the New Jersey HOUSE Standard to satisfy the federal definition of a Highly Qualified Teacher. All veteran teachers must be highly qualified by the end of 2005-2006.

NCLB Core Academic Content Areas

All teachers with primary responsibility for direct instruction in one or more of the core academic content areas are required to demonstrate they satisfy the federal definition of a Highly Qualified Teacher. This includes elementary generalists who teach all subjects to a particular grade/class, special education teachers who provide direct instruction in one or more content areas, middle and secondary level content area instructors and basic skills supplemental teachers. This also includes bilingual teachers and English as a second language (ESL) teachers who provide direct instruction in core academic content.

The New Jersey Core Curriculum Content Standards that align with the list of core academic subjects of §9101 of NCLB are: language arts literacy, science, mathematics, social studies, world languages, and visual and performing arts. Teachers in the areas of health, physical education, technological literacy, career education and consumer, family and life skills and those holding educational services certificates are not required to satisfy the federal definition of a Highly Qualified Teacher.

Requirements - Title I Schools and Programs

New to the profession and newly hired elementary teachers must, as of September 2003, do as follows:

1. Hold at least a bachelor’s degree from a regionally accredited institution of higher education;
2. Hold a valid New Jersey teaching certificate for which no requirements have been waived (i.e., no emergency certification); and
3. Pass a rigorous State test of content knowledge and teaching skills in the basic elementary school curriculum (may have been a State certification test such as the National Teacher Examination (NTE) or Praxis II Elementary Education: Content Knowledge Test).

Newly hired elementary teachers may use the New Jersey HOUSE Standard, if needed. However, these teachers must meet the requirement at the time of hire. New to the profession elementary teachers may not use the New Jersey HOUSE Standard.

Veteran elementary teachers who have been working in schools supported with Title I funds prior to the 2002-2003 school year and veteran elementary teachers who are transferring to Title I schools within the district have until the end of the 2005-2006 school year to satisfy the definition of a Highly Qualified Teacher using the criteria listed above or by fulfilling the New Jersey HOUSE Standard in lieu of passing a rigorous State test of content knowledge and teaching skills for an elementary curriculum.

New to the profession and newly hired middle and secondary teachers must, as of September 2003, do as follows:

1. Hold at least a bachelor's degree from a regionally accredited institution of higher education;
2. Hold a valid New Jersey teaching certificate for which no requirements have been waived (i.e., no emergency certification);
3. Pass a rigorous State test in each core academic subject in which the teacher teaches (may have been a State certification test such as the NTE or Praxis II Content Knowledge Test for the appropriate subject and level); or
4. Successfully complete either an undergraduate major, a graduate degree, coursework equivalent to an undergraduate major, or advanced certification or credentialing (i.e., National Board Certification) for each core academic subject teaching assignment.

Newly hired middle and secondary teachers may use the New Jersey HOUSE Standard, if needed. However, these teachers must meet the requirement at the time of hire. New to the profession middle and secondary teachers may not use the New Jersey HOUSE Standard.

Veteran middle and secondary teachers who have been working in schools supported with Title I funds prior to the 2002-2003 school year and middle and secondary teachers who are transferring to Title I schools within the district have until the end of the 2005-2006 school year to satisfy the definition of a Highly Qualified Teacher using the criteria listed above or by fulfilling the New Jersey HOUSE Standard in each content area teaching assignment in lieu of passing a State test or having a major, advanced degree, coursework equivalent to a major, or an advanced credential (i.e., National Board certification) for each content area teaching assignment.

Requirements – Non-Title I Schools

New to the profession, newly hired and veteran elementary teachers must, by the end of the 2005-2006 school year, do as follows:

1. Hold at least a bachelor's degree from a regionally accredited institution of higher education;
2. Hold a valid New Jersey teaching certificate for which no requirements have been waived (i.e., no emergency certification); and either:
 - a. Pass a rigorous State test of content knowledge and teaching skills in the basic elementary curriculum (may have been a State certification test such as the NTE Praxis II Elementary Education: Content Knowledge Test); or
 - b. Document ten points on the New Jersey HOUSE Standard as an Elementary Generalist.

New to the profession, newly hired and veteran middle and secondary teachers must, by the end of the 2005-2006 school year do as follows:

1. Hold at least a bachelor's degree from a regionally accredited institution of higher education;
2. Hold a valid New Jersey teaching certificate for which no requirements have been waived (i.e., no emergency certification); and one of the following:
 - a. Pass a rigorous State test in each core academic subject in which the teacher teaches (may have been a State certification test such as the NTE or Praxis II Content Knowledge Test for the appropriate subject and level); or
 - b. Hold an undergraduate major, a graduate degree or thirty credits of coursework equivalent to an undergraduate major for each core academic subject teaching assignment; or
 - c. Hold National Board Certification in the content area(s) of the teaching assignment; or
 - d. Document ten points on the New Jersey HOUSE Standard for each core academic subject teaching assignment.

Districts may hire middle and special education teachers for the 2003-2004 school year who satisfy the requirements for a standard instructional license under the current State licensing regulations. Middle and special education teachers must pass the relevant Praxis II Content Knowledge Test(s) in the 2003-2004 school year. The Praxis II Content Knowledge Test(s) for middle grades will be available early in 2004.

Special Education Teachers who provide direct content instruction must pass the relevant Praxis II Test(s) at the appropriate grade level(s) for the subject(s) they teach based on the grade level of the content/curriculum they teach. Requirements for special education teachers who provide consultative/support (in-class and pull-out) services and/or who co-teach with a content area instructor in general education settings will be as required based on the final version of the reauthorized IDEA legislation.

Parent Notification

In September of each school year, schools receiving Title I funds (including funds used for before/after school programs) must notify all parents/legal guardians of their right to inquire about the qualifications of their child's teacher(s). In November each year, schools receiving Title I funds must notify parents if any of their child's teachers have not yet satisfied the federal definition of a Highly Qualified Teacher or if their child has been instructed for four or more weeks by a teacher who has not yet satisfied the definition of a Highly Qualified Teacher. Parent notification requirements apply to the entire school whether or not the teacher is paid in whole or in part by Title I funds or teaches within a target assistance program.

The New Jersey Model for Identifying Highly Qualified Teachers – September 2003 provides the guidance to school districts for teachers to meet the highly qualified teacher requirements of NCLB. The Superintendent will ensure the school district completes its responsibilities in the implementation of the Highly Qualified Teacher requirement of No Child Left Behind Act of 2001.

If the school district's plan for Title I, Part A, developed under Section 1112 of the ESEA, is not satisfactory to the parents of participating children, the school district will submit any parent comments with the plan when the school district submits the plan to the New Jersey Department of Education.

In the event the school district is required to reserve and spend at least one percent of the district's Title I, Part A allocation, the school district will involve the parents of children served in Title I, Part A schools in decisions about how these funds will be spent and will ensure that not less than ninety-five percent of the one percent reserved goes directly to the schools.

The school district will be governed by the following statutory definition of parental involvement, and expects Title I schools in the district will carry out programs, activities, and procedures in accordance with this definition:

2423 BILINGUAL AND ESL EDUCATION

M

The Board of Education will provide programs of bilingual education, English as a second language (ESL), and English language services for pupils of Limited English Proficiency (LEP) as required by law and rules of the State Board of Education. Pupils of LEP are those pupils whose native language is other than English and who have sufficient difficulty speaking, reading, writing, or understanding the English language as measured by an English language proficiency test, so as to be denied the opportunity to learn successfully in the classrooms where the language of instruction is English.

Identification of LEP Pupils

The Board will conduct a screening process to determine the native language of each pupil at the time of enrollment in the school district. A census shall be maintained of all pupils whose native language is other than English. The English language proficiency of each pupil whose native language is not English shall be determined by a screening process that includes the administration of a New Jersey Department of Education approved English language proficiency test, an assessment of the pupil's level of reading in English, a review of the pupil's previous academic performance, results of standardized tests in English, and a review of the input of teaching staff members responsible for the educational program of the limited English proficient pupils.

Program Implementation

The district shall provide the following programs:

1. An English language services program whenever there are one or more, but fewer than ten LEP pupils enrolled within the schools of the district. English language services shall be in addition to the regular school program;
2. An ESL program whenever there are ten or more LEP pupils enrolled within the schools of the district; and
3. A bilingual program whenever there are twenty or more LEP pupils in any one-language classification. Where the age range, grade span, and/or geographical location of eligible pupils makes a full-time bilingual program impractical, the Board may offer an instructional program alternative, provided that program has been approved or a waiver for the alternative program has been requested and approval has been granted by

the Department of Education. The Board may establish a program in bilingual education for any language classification with fewer than twenty pupils.

All teachers in these programs shall be appropriately certified in accordance with the requirements as outlined in N.J.A.C. 6A:15-1.9. Every pupil participating in a bilingual, ESL, or English language services program shall be entitled to continue such participation for a period of three years.

Bilingual, ESL, and English Language Services Program Enrollment, Assessment, Exit, and Re-entry

Pupils enrolled in a bilingual, ESL, or English language services program shall be assessed annually with a New Jersey Department of Education approved English language proficiency test to determine their progress in achieving English language proficiency goals and readiness for exiting the program. LEP pupils enrolled in a bilingual, ESL, or English language services program shall be placed in a monolingual English Program when they have demonstrated readiness to function successfully in the English-only program. This process shall be initiated by the pupil's level of English proficiency as measured by a New Jersey Department of Education established standard on an English language proficiency test, and the readiness of the pupil shall be further assessed on the basis of multiple indicators which shall, at a minimum, include classroom performance, the pupil's reading level in English, the judgment of the teaching staff member or members responsible for the education program of the pupil, and performance on achievement tests in English.

In accordance with provisions of N.J.S.A. 18A:35-22.1, a parent(s) or legal guardian(s) may remove a pupil who is enrolled in a bilingual education program at any time; except that during the first three years of a pupil's participation in a bilingual education program, parent(s) or legal guardian(s) may only remove the pupil at the end of each school year. If during the first three years of a pupil's participation in a bilingual education program, a parent(s) or legal guardian(s) wishes to remove the pupil prior to the end of each school year, the removal must be approved by the Executive County Superintendent of Schools. The parent(s) or legal guardian(s) may appeal the Executive County Superintendent's decision to the Commissioner of Education.

Newly exited pupils who are not progressing in the mainstream English program may be considered for re-entry to bilingual and ESL programs in accordance with the provisions of N.J.A.C. 6A:15-1.10(e)1 through (e)5.

When the exit review process is completed, the pupil's parent(s) or legal guardian(s) shall be informed by mail of the placement determination. A parent(s) or legal guardian(s), or teaching staff member who disagrees with the proposed placement may appeal the decision in writing to the program supervisor, who will provide a written explanation for the decision within ten (10) working days. The complainant may appeal this decision in writing to the Board. The Board will review the appeal and respond in writing within forty-five calendar days. A complainant not satisfied with the Board's explanation may appeal to the Commissioner of Education.

Parental Involvement

The parent(s) or legal guardian(s) of a pupil of limited English proficiency will be notified in accordance with the provisions of N.J.A.C. 6A:15-1.13 that their child has been identified as eligible for enrollment in a bilingual, ESL or English language services program. Notice shall be in writing, in the language of which the child of the parents so notified possesses a primary speaking ability, and in English. The notice must also include the information that the parents have the option of declining enrollment if they so chose.

The district will notify the parent(s) or legal guardian(s) of the LEP pupil by mail no later than thirty days after the beginning of the school year that their child has been identified as eligible for enrollment in a bilingual, ESL, or English language services program. If the pupil has not been identified as LEP prior to the beginning of the school year, then the parent(s) or legal guardian(s) must be notified within two weeks of the pupil's placement in a bilingual, ESL, or English language services program.

Parent(s) or legal guardian(s) shall receive progress reports in the same manner and frequency as those sent to parents or legal guardians of other pupils.

Parent(s) or legal guardian(s) of pupils of limited English proficiency will be offered opportunities for involvement in the development and review of program objectives. An advisory committee on bilingual education shall be formed with the majority being parent(s) or legal guardian(s) of pupils of limited English proficiency.

Graduation

Pupils of limited English proficiency will qualify for graduation from high school in accordance with N.J.A.C. 6A:8-5.1(a) and Policy No. 5460.

2415.06 UNSAFE SCHOOL CHOICE OPTION

The Unsafe School Choice Option (USCO) provision of The No Child Left Behind Act of 2001 (NCLB) §9532 contains two provisions that apply to school districts that receive funds under NCLB: Provision I - Persistently Dangerous Schools and Provision II - Victims of Violent Criminal Offenses.

Effective the beginning of each school year, school districts receiving NCLB funds must be prepared to complete the transfer of pupils who choose to exercise Provision I and Provision II of NCLB and this Unsafe School Choice Option Policy. Compliance with the Policy is a condition of receiving funds under any and all titles under NCLB. The Superintendent is required to certify compliance with this USCO Policy to the New Jersey Department of Education (NJDOE) in the application for NCLB funds.

USCO Policy Provision I - Persistently Dangerous Schools (PDS)

1. Criteria for Determining Persistently Dangerous Schools.

A persistently dangerous school is a public elementary or secondary school building (except for Regional Day Schools, Educational Services Commissions and Special Services School Districts) that meets the objective criteria determined by the New Jersey Department of Education (NJDOE) for three consecutive years and is part of a school district that receives funds under NCLB. The NJDOE will use the most current available data from the Electronic Violence and Vandalism Reporting System (EVVRS) to identify persistently dangerous schools on or before July 31 of each year, in compliance with federal regulations (68 FR 16789).

2. Procedures and Guidelines for Schools Determined to be Persistently Dangerous.

Once the district receives notification a school is identified as persistently dangerous, the district must inform all parents of enrolled pupils in the school of the designation within fifteen calendar days of the notice and offer them the option for their children to transfer to a safe public school within the district by the beginning of the respective school year. The district must complete all transfers by the beginning of the school year following the July notification.

Pupils are not required to accept the transfer option, but they must be afforded the opportunity to do so. Parental notice regarding the status of the school and the offer to transfer pupils should be made simultaneously. Parents of enrolled pupils must be notified of the persistently dangerous designation whether or not there is another school within the district for the transferring pupils.

To the extent possible, the district will allow transferring pupils to transfer to schools that are making adequate yearly progress in accordance with NCLB and have not been identified as being in need of school improvement, corrective action or restructuring. The district will take into account the needs and preferences of the affected pupils and parents.

3. Corrective Action Plan for a School Identified as Persistently Dangerous.

If a school in the district is identified as persistently dangerous, the district will submit to the NJDOE, on or before August 25, documentation of compliance with the parent notification requirement and actions taken to complete the transfer arrangements for all pupils exercising the option by the first day of the school year. The district will also develop and submit for approval a corrective action plan to the NJDOE on or before September 30 of the same year, which will apply to the respective school year. The corrective action plan, which must be completed in the format provided by the NJDOE, will describe how the school will reduce the number of incidents of violence as determined by the EVVRS. The NJDOE will provide schools with guidance for their corrective action plans, as well as monitor the school district's timely completion of the approved plans.

In the spring of each following year, the NJDOE will re-evaluate the status of a school identified as persistently dangerous. The NJDOE will review the school's progress towards completing their corrective action plan and compare the current year's incidents of violence, as reported on the EVVRS, to the criteria for determining persistently dangerous schools (PDS). A school identified as maintaining the persistently dangerous designation will be notified by the NJDOE on or before July 31 of the respective year and will be required to submit for approval a revised corrective action plan by August 25 of that year, which will apply to the respective school year. The school district must inform all parents of enrolled pupils in the school of the designation within fifteen calendar days of the notice and offer them the option for their children to transfer to a safe public school by the beginning of the respective school year.

A school no longer designated persistently dangerous will be notified on or before July 31 of the respective year. The persistently dangerous designation will be removed after one or more years contingent upon successful fulfillment of the criteria for removal, as determined by and in accordance with guidance provided by the NJDOE.

4. Procedures and Guidelines for Early Warning of Schools.

Effective in 2004, if a school meets the criteria set forth in this Policy for two consecutive years, the district will be notified of their pattern of offenses on or before August 15 of each year. If notified, the district will develop and submit to the NJDOE for approval a corrective action plan on or before September 30 of the same year, which will apply to the respective school year. The corrective action plan, which must be completed in the format provided by the NJDOE, will describe how the school will reduce the number of incidents of violence as determined by the EVVRS. The NJDOE will provide the school with guidance for their corrective action plan, as well as monitor the school's timely completion of the approved plan. This school shall become a top priority for intensified district support for research-based programs and technical assistance. A school receiving an "early warning" notice is not required to provide the transfer option to pupils.

In the spring of each following year, the NJDOE will reevaluate the school's progress towards completing their corrective action plan and compare the current year's incidents of violence, as reported on the EVVRS, to the criteria for determining persistently dangerous schools. Schools will be notified of their status on or before July 31 of the respective year.

A school that has successfully completed their corrective action plan and reported violent incidents that no longer meet the Criteria for Determining Persistently Dangerous Schools for one school year (the year in which the corrective action plan was in effect) will no longer be required to submit a Corrective Action Plan.

A school that does not successfully complete their Corrective Action Plan and that meets the criteria set forth in this Policy for a third consecutive year will be designated as persistently dangerous and will be required to submit for approval a revised corrective action plan on or before September 30 of that year, which will apply to the respective school year. The district will also provide the transfer option to pupils in the school designated as persistently dangerous.

5. Schools Not Receiving NCLB Funds, but Meeting the Criteria for PDS.

School buildings and districts that do not receive federal funds under NCLB, but meet any one of the criteria for persistently dangerous schools, will be contacted by the NJDOE and be required to develop and submit for approval a Corrective Action Plan on or before September 30 of the respective year. The Corrective Action Plan must be completed in the format provided by the NJDOE and describe how the school will reduce the number of incidents of violence as determined by the EVVRS. The NJDOE will provide the school guidance for their corrective action plan, as well as monitor the school's timely completion of the approved plan.

6 Special Schools Meeting the Criteria for PDS.

Regional Day Schools, Special Services Districts and Educational Services Commissions that meet any one of the criteria for persistently dangerous schools will not be identified as such, but will be contacted by the NJDOE and required to develop and submit for approval a Corrective Action Plan on or before September 30 of the respective year. The Corrective Action Plan must be completed in the format provided by the NJDOE and describe how the school will reduce the number of incidents of violence as determined by the EVVRS. The NJDOE will provide the school with guidance for their corrective action plan, as well as monitor the school's timely completion of the approved plans.

USCO Policy Provision II - Victims of Violent Criminal Offenses

The Victim of Violent Criminal Offenses provision of NCLB requires a pupil who becomes a victim of a violent criminal offense, as determined by State law, while in or on the grounds of a public elementary or secondary school that the pupil attends, be allowed to attend a safe public elementary or secondary school within the district, including a public charter school.

The Superintendent will consult with the Board attorney and communicate with designated local and/or county law enforcement authorities, per the provisions of the Uniform State Memorandum of Agreement Between Education and Law Enforcement Officials and N.J.A.C. 6A:16-6.2(b)12, on questions and issues that arise in the implementation of the individual victims of violent criminal offenses section of this Policy.

1. Criteria for Determining Victims of Violent Criminal Offenses

The following criteria must be used to determine when an enrolled pupil has become a victim of a violent criminal offense while in or on the grounds of a public elementary or secondary school that the pupil attends. These criteria only apply to a pupil who has become a victim of one or more of the violent criminal offenses enumerated below:

A pupil is considered a victim of a violent criminal offense when:

- a. A referral has been made to law enforcement officials for suspicion that one of the violent criminal offenses enumerated below has occurred; and
- b. One or more of the following applies:
 - (1) Law enforcement officials have filed formal charges against the perpetrator(s) for commission of the violent crime; or
 - (2) The perpetrator(s) of the violent crime has been disciplined in accordance with school policy; or
 - (3) The perpetrator(s) of the violent crime either has not been identified or is not an enrolled pupil(s), but it is clear that the pupil (victim) has become a victim of a violent criminal offense based on objective indicators such as physical evidence, eyewitness testimony, and/or circumstantial evidence; or
 - (4) The pre-existence of a restraining order against the perpetrator(s) of the violent crime.

2. Procedures and Guidelines

Effective the first day of each school year beginning in 2003, the district must be prepared to begin the transfer of any pupil who chooses to exercise the unsafe school choice option provision. The district must offer, within ten calendar days, an opportunity to transfer to a safe public school within the district to any pupil who has become a victim of a violent criminal offense while in or on the grounds of a public school that the pupil attends. While the pupil must be offered the opportunity to transfer, the pupil may elect to remain at the school.

To the extent possible, the district will allow any transferring pupil to transfer to a school that is making adequate yearly progress in accordance with NCLB and has not been identified as being in need of school improvement, corrective action or restructuring. The district will take into account the needs and preferences of the affected pupil and his or her parent(s). Transfers must occur within thirty days of the determination that the pupil was a victim of a violent criminal offense.

3. Violent Criminal Offenses

The violent criminal offenses under New Jersey statutes that apply to the individual victim provision are identified and explained below. The offenses apply to completed offenses, as well as threats and attempts to commit the offenses. The offenses and attempts to commit the offenses apply only when they occur in or on the grounds of a school that the pupil attends. The offenses apply whether they occur wholly or in part in or on the grounds of a school that the pupil attends.

The offenses apply only to acts or attempts that are directed at a person (victim) or a group of specified individuals (victims), rather than acts that indiscriminately affect the entire school population or non-specified individuals or groups. For the purposes of this Unsafe School Choice Option Policy, the term “victim” shall not include a pupil who purposely, knowingly or recklessly provokes the conduct constituting the criminal incident against him or her.

4. Applicable Violent Criminal Offenses

Below is a description of each applicable violent criminal offense that is based upon New Jersey statutes and references to statutory citations that provide complete explanations of each designated offense. The descriptions provided below are not intended to be a complete explanation of each offense or a substitute for the actual provisions of the authorizing statutes. Instead, the descriptions are provided as an aid in facilitating understanding of the general intent and practical applications of the violent criminal offenses that pertain to this Unsafe School Choice Option Policy.

- a. Homicide [N.J.S.A. 2C:11-2] - A person is a victim of a homicide when he or she is the child, sibling or other relative of a decedent, resulting from someone purposely, knowingly or recklessly causing the death of the pupil’s parent, sibling or relative in or on school grounds.

- a. With a purpose to intimidate a victim or a group of specified victims because of race, color, religion, gender, handicap, sexual orientation or ethnicity; or

- b. Knowing that the conduct constituting the offense would cause a victim or a group of specified victims to be intimidated because of race, color, religion, gender, handicap, sexual orientation or ethnicity; or
 - c. Under circumstances that caused any victim of the underlying offense to be intimidated and the victim, considering the manner in which the offense was committed, reasonably believed either that:
 - (1) The offense was committed with a purpose to intimidate the victim or any person or entity in whose welfare the victim is interested because of race, color, religion, gender, handicap, sexual orientation or ethnicity; or
 - (2) The victim or the victim's property was selected to be the target of the offense because of race, color, religion, gender, handicap, sexual orientation or ethnicity.
7. Terroristic Threat [N.J.S.A. 2C:12-3(a) and 2C:12-3(b)] - A person is a victim of a terroristic threat when the actor threatens to commit one of the violent criminal offenses enumerated under the USCO Policy Provision II against the victim with the purpose to put the pupil in imminent fear of one of the violent crimes enumerated in the USCO Policy Provision II under circumstances reasonably causing the victim to believe the immediacy of the threat and the likelihood that it will be carried out. The definition of terroristic threat applies to N.J.S.A. 2C:12-3(a) insofar as the threat was directed at a person (victim) or a group of specified individuals (victims).
8. Robbery [N.J.S.A. 2C:15-1] - A person is a victim of a robbery when the actor, in the course of committing a theft, inflicts bodily injury; or uses force upon the victim; or threatens the victim with or purposely puts the victim in fear of immediate bodily injury.

Miscellaneous Provisions of USCO

1. Transfer Time Period – Persistently Dangerous Schools

The transfer will be temporary and will be in effect as long as the pupil's original school is identified as persistently dangerous.

2. Charter School Transfer Option

While NCLB permits affected pupils to be afforded the opportunity to attend a public charter school, in addition to a safe public elementary school or secondary school within the school district, the application of this provision in New Jersey is limited. Transfers to a charter school can only occur as a part of the charter school's "equal opportunity" selection process and among charter schools administered under the same managing authority (i.e., charter schools within the charter school district).

Since charter schools in New Jersey are considered public LEA's, pursuant to N.J.S.A. 18A:36A-3, operated independently of a local board of education, transfers may only take place among charter schools within the LEA. Therefore, pupils may be permitted to transfer to another charter school that is administered under the same managing authority of the charter school, but are not permitted to transfer to a school in the local public school district administered by a local board of education.

However, pursuant to N.J.S.A. 18A:36A-7, a charter school must be open to all pupils on a space available basis and may not discriminate in its admission policies or practices (although it may establish reasonable criteria to evaluate prospective pupils), and in accordance with N.J.S.A. 18A:36A-8, if there are more applications to enroll in the charter school than there are spaces available, the charter school must select pupils to attend using a random selection process for enrollment.

3. Funding Sources for USCO

The Unsafe School Choice Option law does not authorize resources specifically to help cover USCO costs. However, under certain circumstances Federal funds may be used. For example, funds under SDFSCA (Title IV, Part A of the NCLB) may be used to establish safe zones of passage to and from school to ensure that pupils travel safely on their way to school and on their way home [Section 4115(b)(2)(E)(v)]. In addition, SDFSCA funds may be used to help cover costs such as tuition or transportation related to the Unsafe School Choice Option or expansion of public school choice [Section 5121(8) and 5131(12 and (25))].

4. Special Education Pupils

The district will provide transferred special education pupils with the program required by the pupil's Individualized Education Program (IEP).

Under the federal regulations (68 FR 16789), this Policy only applies to offenses that occur in the 2003–2004 school year and thereafter. Beginning with the 2004–2005 school year, the district must provide the transfer option to victims of violent criminal offenses that occurred in the previous school year, if the determination that the pupil was a victim was made thirty days or fewer before the end of the school year.

The district will use the school choice option as one response to incidents of victimization. Additionally, the district will develop and implement appropriate strategies for addressing the circumstances that contribute to or support victimization, as well as consistently and proactively manage individuals who have victimized pupils. The district will promote the importance of school safety and respond to the needs of pupils and staff. Pursuant to the law, the district will provide an opportunity for pupils, parents and school district and law enforcement personnel to discuss methods for keeping schools safe from violence; to create school safety plans; and to recognize pupils in need of help. The district will organize activities to prevent school violence, including, but not limited to, age-appropriate opportunities for pupil discussion on conflict resolution, issues of pupil diversity and tolerance. Law enforcement personnel will be invited to join members of the teaching staff in the discussions. Programs shall also be provided for school district employees that are designated to help school district employees recognize warning signs of school violence and to instruct school district employees on recommended conduct during an incident of school violence.

If the complainant does not agree with the NJDOE's decision, the complainant may appeal to the United States Department of Education Secretary.

A Complaint alleging the NJDOE violated the administration of a program must be submitted to the New Jersey Department of Education Chief of Staff or the United States Department of Education Secretary. The NJDOE requests the complainant first contact the New Jersey Department of Education Chief of Staff to resolve the issue. The NJDOE Office of Strategic Initiatives and Accountability will coordinate the investigation of a Complaint. When the investigation is complete, the Chief of Staff will notify the complainant in writing regarding the outcome of the investigation. 2416 PROGRAMS FOR PREGNANT PUPILS

No pupil, married or unmarried, who is otherwise eligible for enrollment in this district will be denied an educational program because of pregnancy, childbirth, pregnancy-related disabilities, or actual or potential parenthood.

The Board of Education reserves the right to require as a prerequisite for participation in the regular instructional program and in the co-curricular program that a pregnant pupil present to the school Principal her physician's written statement that such participation will not be injurious to her health or jeopardize her pregnancy.

The Superintendent shall develop a program of special instruction in health and nutrition and shall direct appropriate teaching staff members to counsel the pregnant pupil, to assist her in securing necessary medical services, to cooperate with community resources on her behalf, and to encourage her toward the completion of an appropriate educational program.

A pregnant pupil who does not wish to attend regular classes or is physically unable to do so during her pregnancy may, with her consent, be assigned to an alternate instructional program which may include home instruction or a program offered by another school district or institution.

The parent(s) or legal guardian(s) of a pregnant pupil under eighteen years of age shall be notified of any change in the pupil's regular educational program.

A pupil who has received an alternate instructional program for reasons associated with pregnancy shall be readmitted to the regular program upon her request and the written statement of her physician that she is physically fit for attendance.

2422 HEALTH EDUCATION

The Board of Education will provide a comprehensive health education program aligned with the New Jersey Department of Education Core Curriculum Content Standards. This program will be a coordinated sequential curriculum at all grade levels, with instructional units appropriate to the age, growth and development, and maturity of pupils.

The Superintendent will develop and recommend to the Board a program of health education designed for pupils to master the Cumulative Progress Indicators of the Department of Education's Comprehensive Health Education and Physical Education Core Curriculum Content Standards.

Staffing

Except as provided below for human sexuality and family life education, courses in health education will be taught by teachers whose certification qualifies them to teach health education. Teachers of the human sexuality and family life, substance use and abuse, and HIV prevention programs will be offered specific in-service training.

Excusal

Any pupil whose parent(s) or legal guardian(s) presents to the School Principal a signed statement that any part of the instruction in health, human sexuality and family life education or sex education program is in conflict with his/her conscience or sincerely held moral or religious beliefs shall be excused from the portion of the course in which such instruction is being given, and no penalties as to credit or graduation shall result.

Community Involvement

The Superintendent will ensure the program is aligned with the New Jersey Department of Education's Core Curriculum Content Standards. The programs of instruction for human sexuality and family life education will be developed through appropriate consultation and in participation with teachers, school administrators, parent(s) or legal guardian(s), appropriate age school pupils, physicians, members of the clergy, and representative members of the community. Such consultation shall continue, as appropriate, as the program is continually evaluated and revised.

Human Sexuality and Family Life Education

All pupils will learn the biological, cultural, and psychological aspects of human sexuality and family life. The Board will adopt a coordinated, sequential human sexuality and family life education program aligned with the New Jersey Department of Education's Core Curriculum Content Standards. Any education that is given as part of any planned course, curriculum or other instructional program and that is intended to impart information or promote discussion or understanding in regard to human sexual behavior, sexual feelings and values, human sexuality and reproduction, pregnancy avoidance or termination, HIV infection or sexually transmitted diseases, and any materials including, but not limited, to handouts, speakers, notes or audiovisuals presented on school property concerning methods for the prevention of acquired immune deficiency syndrome (HIV/AIDS), other sexually transmitted diseases and of avoiding pregnancy, will stress that abstinence from sexual activity is the only completely reliable means of eliminating the sexual transmission of HIV/AIDS and other sexually transmitted diseases and of avoiding pregnancy.

The Board will include in its human sexuality and family life curriculum instruction on reasons, skills and strategies for remaining or becoming abstinent from sexual activity. Any instruction concerning the use of contraceptives or prophylactics, such as condoms, will also include information on their failure rates for preventing pregnancy, HIV and other sexually transmitted diseases in actual use among adolescent populations and shall clearly explain the difference between risk reduction through the use of such devices and risk elimination through abstinence. In addition, the human sexuality and family life curriculum will stress the importance of avoiding intravenous drug use.

A copy of the complete district human sexuality and family life education curriculum and all instructional materials shall be available for public inspection in each school in the district prior to its use in any classroom. The parent(s) or legal guardian(s) of each pupil enrolled in the program shall receive annually an outline of the curriculum and a list of instructional materials for that pupil's grade along with notice of the availability for review of the complete curriculum and all materials.

The human sexuality and family life program may be taught by district personnel certified to teach biology, comprehensive science, elementary grades, health, health and physical education, home economics, nursery school, psychology, or special education classes, and the school nurse. The program may utilize the contributions of such community resource persons as parent(s) or legal guardian(s), physicians, the clergy, attorneys, school social workers, school psychologists, and law enforcement personnel. The Board encourages the utilization of teachers in other disciplines through an interdisciplinary approach.

Use and Abuse of Alcohol, Tobacco, and Other Drugs

All pupils will learn the physical, mental, emotional, and social effects of the use and abuse of alcohol, tobacco, and other drugs. The Board will adopt a coordinated, sequential human sexuality and family life education program aligned with the New Jersey Department of Education's Core Curriculum Content Standards.

2423 BILINGUAL AND ESL EDUCATION

M

The Board of Education will provide programs of bilingual education, English as a second language (ESL), and English language services for pupils of Limited English Proficiency (LEP) as required by law and rules of the State Board of Education. Pupils of LEP are those pupils whose native language is other than English and who have sufficient difficulty speaking, reading, writing, or understanding the English language as measured by an English language proficiency test, so as to be denied the opportunity to learn successfully in the classrooms where the language of instruction is English.

Identification of LEP Pupils

The Board will conduct a screening process to determine the native language of each pupil at the time of enrollment in the school district. A census shall be maintained of all pupils whose native language is other than English. The English language proficiency of each pupil whose native language is not English shall be determined by a screening process that includes the administration of a New Jersey Department of Education approved English language proficiency test, an assessment of the pupil's level of reading in English, a review of the pupil's previous academic performance, results of standardized tests in English, and a review of the input of teaching staff members responsible for the educational program of the limited English proficient pupils.

Program Implementation

The district shall provide the following programs:

1. An English language services program whenever there are one or more, but fewer than ten LEP pupils enrolled within the schools of the district. English language services shall be in addition to the regular school program;
2. An ESL program whenever there are ten or more LEP pupils enrolled within the schools of the district; and
3. A bilingual program whenever there are twenty or more LEP pupils in any one-language classification. Where the age range, grade span, and/or geographical location of eligible pupils makes a full-time bilingual program impractical, the Board may offer an instructional program alternative, provided that program has been approved or a waiver for the alternative program has been requested and approval has been granted by

the Department of Education. The Board may establish a program in bilingual education for any language classification with fewer than twenty pupils.

All teachers in these programs shall be appropriately certified in accordance with the requirements as outlined in N.J.A.C. 6A:15-1.9. Every pupil participating in a bilingual, ESL, or English language services program shall be entitled to continue such participation for a period of three years.

Bilingual, ESL, and English Language Services Program Enrollment, Assessment, Exit, and Re-entry

Pupils enrolled in a bilingual, ESL, or English language services program shall be assessed annually with a New Jersey Department of Education approved English language proficiency test to determine their progress in achieving English language proficiency goals and readiness for exiting the program. LEP pupils enrolled in a bilingual, ESL, or English language services program shall be placed in a monolingual English Program when they have demonstrated readiness to function successfully in the English-only program. This process shall be initiated by the pupil's level of English proficiency as measured by a New Jersey Department of Education established standard on an English language proficiency test, and the readiness of the pupil shall be further assessed on the basis of multiple indicators which shall, at a minimum, include classroom performance, the pupil's reading level in English, the judgment of the teaching staff member or members responsible for the education program of the pupil, and performance on achievement tests in English.

In accordance with provisions of N.J.S.A. 18A:35-22.1, a parent(s) or legal guardian(s) may remove a pupil who is enrolled in a bilingual education program at any time; except that during the first three years of a pupil's participation in a bilingual education program, parent(s) or legal guardian(s) may only remove the pupil at the end of each school year. If during the first three years of a pupil's participation in a bilingual education program, a parent(s) or legal guardian(s) wishes to remove the pupil prior to the end of each school year, the removal must be approved by the Executive County Superintendent of Schools. The parent(s) or legal guardian(s) may appeal the Executive County Superintendent's decision to the Commissioner of Education.

Newly exited pupils who are not progressing in the mainstream English program may be considered for re-entry to bilingual and ESL programs in accordance with the provisions of N.J.A.C. 6A:15-1.10(e)1 through (e)5.

When the exit review process is completed, the pupil's parent(s) or legal guardian(s) shall be informed by mail of the placement determination. A parent(s) or legal guardian(s), or teaching staff member who disagrees with the proposed placement may appeal the decision in writing to the program supervisor, who will provide a written explanation for the decision within ten (10) working days. The complainant may appeal this decision in writing to the Board. The Board will review the appeal and respond in writing within forty-five calendar days. A complainant not satisfied with the Board's explanation may appeal to the Commissioner of Education.

Parental Involvement

The parent(s) or legal guardian(s) of a pupil of limited English proficiency will be notified in accordance with the provisions of N.J.A.C. 6A:15-1.13 that their child has been identified as eligible for enrollment in a bilingual, ESL or English language services program. Notice shall be in writing, in the language of which the child of the parents so notified possesses a primary speaking ability, and in English. The notice must also include the information that the parents have the option of declining enrollment if they so chose.

The district will notify the parent(s) or legal guardian(s) of the LEP pupil by mail no later than thirty days after the beginning of the school year that their child has been identified as eligible for enrollment in a bilingual, ESL, or English language services program. If the pupil has not been identified as LEP prior to the beginning of the school year, then the parent(s) or legal guardian(s) must be notified within two weeks of the pupil's placement in a bilingual, ESL, or English language services program.

Parent(s) or legal guardian(s) shall receive progress reports in the same manner and frequency as those sent to parents or legal guardians of other pupils.

Parent(s) or legal guardian(s) of pupils of limited English proficiency will be offered opportunities for involvement in the development and review of program objectives. An advisory committee on bilingual education shall be formed with the majority being parent(s) or legal guardian(s) of pupils of limited English proficiency.

Graduation

Pupils of limited English proficiency will qualify for graduation from high school in accordance with N.J.A.C. 6A:8-5.1(a) and Policy No. 5460.

2425 PHYSICAL EDUCATION

The Board of Education recognizes the value of physical activity in the development and maintenance of sound physical and mental health. Accordingly, the Board directs the establishment, in accordance with law, and the New Jersey Core Curriculum Content Standards of a program of physical education and the enrollment therein of every pupil in attendance in the schools of this district, insofar as each is physically capable of participation. Each course will provide pupils with a regimen of physical exercise and activity, assist pupils in the development of physical skills and achievements, encourage pupils in a spirit of sharing and cooperation, and instill in pupils a life-long appreciation for physical activity. The successive courses of physical education will be so designed as to provide pupils with exposure to a variety of athletic and physical activities.

2428.1 STANDARDS-BASED INSTRUCTIONAL PRIORITIES

Standards-Based Instruction

The school district shall implement a coherent curriculum for all pupils, including English language learners (ELLs), gifted and talented pupils, and pupils with disabilities, that is content-rich and aligned to the Core Curriculum Content Standards (CCCS). The curriculum shall guide instruction to ensure every pupil masters the CCCS.

Instruction shall be designed to engage all pupils and modified based on pupil performance. The curriculum shall include: interdisciplinary connections throughout; integration of 21st century skills; a pacing guide; a list of instructional materials including various levels of text at each grade; benchmark assessments; and modifications for special education pupils, English language learners in accordance with N.J.A.C. 6A:15, and gifted pupils.

The school district shall collect and analyze pupil achievement data by subgroups (such as economically disadvantaged, race and ethnicity, pupils with disabilities, English language learners) and make educational decisions based on such data.

The school district shall:

1. Transmit required pupil, faculty, school, and school district data to New Jersey Standards Measurement and Resources for Teaching (NJ SMART), the New Jersey Department of Education's data warehouse, on a schedule and in a form specified by the Department of Education;
2. Use NJ SMART and its data query resources to track pupil progress year-to-year and school-to-school and to identify continuously enrolled pupils by school and school district;
3. Ensure teachers, school administrators, and central office supervisors receive training in NJ SMART and its data query resources;
4. Analyze assessments of pupil progress in relation to curricular benchmarks and the results of State and non-State year-end tests reported by subgroups (such as economically disadvantaged, race and ethnicity, pupils with disabilities, and English language learners).

The school district central office staff shall prepare data on comparative performance for all schools in the district and make them available to the schools. This analysis shall include the following comparisons using State assessment data:

1. Each grade level across all schools within the district;
2. Schools within the district;
3. Comparable districts by district factor groups; and
4. Data with State averages.

The school district shall ensure a free appropriate public education is available to all pupils with disabilities according to the Individuals with Disabilities Education Act (IDEA), 20 U.S.C. §§ 1400 et seq., and N.J.A.C. 6A:14.

The school district shall provide English language learners with instructional services pursuant to N.J.A.C. 6A:15 and provide gifted and talented pupils with appropriate instructional services pursuant to N.J.A.C. 6A:8-3.1.

The school district shall provide library-media services that are connected to classroom studies in each school building, including access to computers, district-approved instructional software, appropriate books including novels, anthologies and other reference materials, and supplemental materials that motivate pupils to read in and out of school and to conduct research. The school district will provide these library-media services under the direction of a certified school library media specialist.

Secondary Education Initiatives

The school district shall develop a plan in 2008-2009 for implementing the secondary education initiatives specified in N.J.A.C. 6A:13-2.2(c) through (e) by the 2009-2010 school year, except that secondary school districts previously subject to N.J.A.C. 6A:10 and 6A:10A shall immediately comply with the secondary education initiatives specified in N.J.A.C. 6A:13-2.2(c) through (e).

The school districts shall:

1. Have a school-level planning team to guide the development and implementation of the secondary education reforms described in N.J.A.C. 6A:13-2.2. A representative group of teachers and administrators shall determine team membership and operating procedures.

2. Provide instructional services, professional development, and other support to assist secondary schools with the implementation of the secondary education initiatives specified in N.J.A.C. 6A:13-2.2.
3. Create personalized learning environments that strengthen relationships among pupils, teachers, staff members, families and the larger community for pupils in grades six through twelve. These personalized learning environments may include:
 - a. Small learning communities in free-standing facilities or within larger facilities;
 - b. Ninth grade academies where freshman pupils remain together and are provided with a supportive environment to enhance their successful transition to high school;
 - c. Pupil support systems where pupils are assigned an adult mentor or team of adults who know(s) them and can support pupil efforts in achieving goals and solving problems;
 - d. Academies with a career focus;
 - e. Multi-grade academies where pupils at various grade levels may remain with a core group of teachers for multiple years in an academy-type format which may be organized around a particular theme and involve interdisciplinary teaming; or
 - f. Other practices for personalizing learning environments that strengthen relationships among pupils, teachers, staff members, families, and the larger community.

The school district shall implement academic coursework aligned to N.J.A.C. 6A:8-5.1 that prepares all pupils for success in postsecondary education and/or careers after graduation, including the development of academic skills integral to success in rigorous high school courses.

Beginning in 2008-2009, all pupils entering grade nine shall complete by the end of their high school education, at a minimum, coursework in language arts literacy, mathematics, and science. These shall include college level preparatory English I, II, III and IV, Algebra I, Lab Biology or the equivalent content taught in an integrated or career-based format, and other coursework as specified in N.J.A.C. 6A:8.

All required courses shall:

1. Be developed, reviewed, evaluated, and revised by a broad cross-section of teachers, content supervisors, and Principals;
2. Satisfy the Core Curriculum Content Standards and indicators in each content area according to the graduation requirements in N.J.A.C. 6A:8-5.1; and
3. Be aligned to the district curriculum which identifies the purpose of instruction, including the essential content to be mastered in each course with interim benchmarks and assessments and final assessments.

Secondary school districts that administer the high school State assessment and in which ten percent or more of their pupils satisfy high school graduation requirements through the Special Review Assessment (SRA) shall submit to the Department of Education by November 15 of the subsequent school year an analysis of all pupils who graduated by means of the SRA in the previous school year. The analysis shall include:

1. The names of high school courses and grades achieved for SRA pupils in language arts literacy, mathematics, and science;
2. The attendance records for SRA pupils for each year of high school;
3. Review of the High School Proficiency Assessment (HSPA) and corresponding Grade Eight Proficiency Assessment (GEPA)/New Jersey Assessment of Skills and Knowledge 8 (NJ ASK8) scores attained by pupils;
4. Review of whether SRA pupils were taught by appropriately certified staff in English, mathematics, and science in grades nine through twelve; and
5. Development of a plan for increasing the proportion of pupils graduating by means of the State high school assessment based on data.

Where applicable, secondary school districts shall collaborate with sending and receiving districts to implement the secondary education initiatives outlined in N.J.A.C. 6A:13-2.2.

The Commissioner shall appoint and consult with an advisory committee composed of educators with experience and knowledge in secondary education to guide the implementation of secondary education reform.

2430 CO-CURRICULAR ACTIVITIES

The Board of Education believes that the goals and objectives of this district are best achieved by a diversity of learning experiences, some of which are more appropriately conducted outside the regular instructional program of the school. The purpose of such co-curricular activities shall be to develop leadership capacities and good organizational skills, to aid in the socialization of pupils, and to enable pupils to explore a wider range of individual interests than might be available in the regular curricular program.

The Board shall make school facilities, supplies, and equipment available and assign staff members for the support of a program of co-curricular activities for pupils in grades nine through twelve. The Board shall maintain the program of co-curricular activities at no cost to participating pupils, except that pupils may be required to provide supplies in accordance with Board Policy No. 2520 on instructional supplies and pupils may be required to assume all or part of the costs of travel and attendance at co-curricular events and trips.

For purposes of this policy, co-curricular activities are those activities conducted on or off school premises by clubs, associations, and organizations of pupils sponsored by the Board and do not include athletic competitions and practices. Co-curricular activities must be related to the curriculum but are not offered for credit toward promotion or graduation and are ordinarily conducted wholly or partly outside the regular school day.

The Board will permit the use of school facilities by organizations of pupils during pupil activity periods. No group of pupils, regardless of the size of the group, will be denied an opportunity to meet on the basis of the religious, political, philosophical, or other content of the speech at their meeting.

No co-curricular activity shall be considered to be under the sponsorship of this Board unless it has been approved by the Board on recommendation of the Superintendent.

Pupils shall be fully informed of the co-curricular activities available to them and of the eligibility standards established for participation in co-curricular activities. Co-curricular activities shall be available to all pupils who voluntarily elect to participate

The Board will not permit the organization of a fraternity, sorority, or secret society.

All pupils who wish to participate in co-curricular activities must meet the following academic requirements:

2431 ATHLETIC COMPETITION (M)

The Board of Education recognizes the value of a program of athletic competition for both boys and girls as an integral part of the total school experience. Game activities and practice sessions provide opportunities to learn the values of competition and good sportsmanship. Programs of athletic competition, both intrascholastic and interscholastic, offer pupils the opportunity to exercise and test their athletic abilities in a context greater and more varied than that offered by the class or school or school district alone, and an opportunity for career and educational development.

For purpose of this policy, programs of athletic competition include all activities relating to competitive sports contests, games, events, or sports exhibitions involving individual pupils or teams of pupils when such events occur within or between schools within this district or with any schools outside this district. The programs of athletic competition shall include, but are not limited to, high school interscholastic athletic programs, middle school interscholastic athletic programs where school teams or squads play teams or squads from other school districts, and/or intramural athletic programs within a school or among schools in the district and any cheerleading program or activity in the school district.

Eligibility Standards

A pupil who wishes to participate in a program of athletic competition must submit, on a form provided by the district, the signed consent of his/her parent(s) or legal guardian(s). The consent of the parent(s) or legal guardian(s) of a pupil who wishes to participate in a program of athletic competition must include an acknowledgment of the physical hazards that may be encountered in the activity.

Pupil participation in a program of athletic competition shall be governed by the following eligibility standards:

For School Districts with High School Pupils and NJSIAA Athletics

1. To be eligible for participation in the interscholastic athletic program of a New Jersey State Interscholastic Athletic Association (NJSIAA) member school, all high school pupils must meet, at a minimum, all the eligibility requirements of the Constitution, Bylaws, and Rules and Regulations of the NJSIAA.

Home schooled children are not eligible to participate in the high school interscholastic athletic program of this district.

POLICY

ATHLETIC COMPETITION (M)

2. A pupil in grades 9 through 12 is eligible for participation in school district sponsored programs of athletic competition if he/she passed all courses required for promotion or graduation in the preceding semester.

Home schooled children in grades 9 through 12 are not eligible to participate in school district sponsored programs of athletic competition of this district.

3. A pupil in any grade must maintain a satisfactory record of attendance to be eligible for participation in school district sponsored programs of athletic competition. An attendance record is unsatisfactory if the number of unexcused absences exceed 18 school days in the school year prior to the pupil commencing participation in school district sponsored programs of athletic competition.
A pupil who is serving an in-school or out-of-school suspension may not participate in school district sponsored programs of athletic competition while serving the suspension.

Notice of the school district's eligibility requirements shall be available to pupils.

Health Requirements

Good physical condition, freedom from injury, and full recovery from illness are prerequisites to participation in school district sponsored programs of athletic competition. Information concerning a pupil's HIV/AIDS status shall not be required as part of the medical examination or health history pursuant to N.J.S.A. 26:5C-1 et seq.

Pupils enrolled in grades six to twelve must receive a medical examination prior to participation in school-sponsored interscholastic or intramural programs of athletic competition and any cheerleading program or activity.

A medical examination is the assessment of an individual's health status. The examination shall be conducted within 365 days prior to the first practice session with examinations being conducted at the medical home of the pupil. The "medical home" is defined as a health care provider and that provider's practice site chosen by the pupil's parent(s) or legal guardian(s) for the provision of health care. If a pupil does not have a medical home, the school district shall provide this examination at the school physician's office or other comparably equipped facility. The parent(s) or legal guardian(s) may choose either the school physician or their own private physician to provide this medical examination.

The findings of this examination shall be documented on a form that is approved by the Commissioner of Education and shall include: immunizations pursuant to N.J.A.C. 8:57-4.1 through 4.16; medical history including allergies, past serious illnesses, injuries, operations, medications, and current health problems; health screenings including height, weight, hearing, blood pressure, and vision; and physical examinations. A physical examination is the examination of the body by a professional licensed to practice medicine or osteopathy or an advanced practice nurse.

The medical examination shall also include a health history questionnaire completed and signed by the parent or legal guardian. A health history is a record of a person's past health events provided by the individual, a parent or legal guardian, or health care provider.

The report of health findings of the medical examination for participation shall be documented on the Athletic Preparticipation Physical Examination Form approved by the Commissioner of Education to determine whether the pupil had or currently has any of the health conditions outlined in N.J.A.C. 6A:16-2.2(h)1.ii.(1) since their last physical. The medical examination shall be conducted in accordance with N.J.A.C. 6A:16-2.2 and Regulation 2431.2.

The medical report shall include, at a minimum, normalities as outlined in N.J.A.C. 6A:16-2.2(h)1.ii.(2). The medical report shall be provided to the school physician if the school physician did not conduct the medical examination. The medical report shall indicate whether the pupil is allowed or disallowed to participate in a program of athletic competition and must be completed and signed by the original examining physician, advanced practice nurse, or physician's assistant. A form that is incomplete shall be returned to the pupil's medical home for completion. A pupil that does not have a completed Athletic Preparticipation Physical Examination Form shall not be permitted to participate.

If the pupil's medical examination was completed more than sixty days prior to the first practice session, the pupil must provide a health history update of medical problems experienced since the last medical examination in accordance with N.J.A.C. 6A:16-2.2(h)1.iii. This health history update must be completed and signed by the parent(s) or legal guardian(s).

The school district will provide written notification to the parent(s) or legal guardian(s), signed by the school physician, stating approval of the pupil's participation, based solely on the medical report, or the written reasons for the school physician's disapproval of the pupil's participation. The school physician's signature on the notification indicates the medical report complies with the requirements of N.J.A.C. 6A:16-2.2(h)iv.

The health findings of this medical examination shall be maintained as part of the pupil's health record.

Emergency Procedures

Athletic coaches shall be trained in first aid to include sports-related concussion and head injuries, the use of a defibrillator, the identification of pupil athletes who are injured or disabled in the course of any athletic program or activity, and any other first aid procedures or other health related trainings required by law or the Superintendent.

The Superintendent shall prepare and present to the Board for its approval procedures for the emergency treatment of injuries and disabilities that occur in the course of any athletic program or activity. Emergency procedures shall be reviewed not less than once in each school year and shall be disseminated to appropriate staff members.

Interscholastic Standards

The Board shall approve annually a program of interscholastic athletics and shall require that all facilities utilized in that program, whether or not the property of this Board, properly safeguard both players and spectators and are kept free from hazardous conditions.

The Board adopts the Constitution, Bylaws, Rules, and Regulations of the New Jersey State Interscholastic Athletic Association as Board policy and shall review such rules on a regular basis to ascertain they continue to be in conformity with the objectives of this Board.

The Superintendent shall annually prepare, approve, and present to the Board for its consideration a program of interscholastic athletics that includes a complete schedule of athletic events and shall inform the Board of changes in that schedule.

PREVENTION AND TREATMENT OF SPORTS-RELATED CONCUSSIONS AND HEAD

M

A concussion is a traumatic brain injury caused by a direct or indirect blow to the head or body. In order to ensure the safety of pupils that participate in interscholastic athletics and cheerleading programs, it is imperative that student-athletes, cheerleaders, coaches, and parents are educated about the nature and treatment of sports-related concussions and other head injuries. Allowing a student-athlete or cheerleader to return to play before recovering from a concussion increases the chance of a more serious brain injury.

Every school district that participates in interscholastic athletics or cheerleading programs is required to adopt a policy concerning the prevention and treatment of sports-related concussions and other head injuries among student-athletes and cheerleaders in accordance with the provisions of N.J.S.A. 18A:40-41.1 et seq. For the purpose of this Policy, “interscholastic athletics” shall be Kindergarten through twelfth grade school-sponsored athletic programs where teams or individuals compete against teams or individuals from other schools or school districts. For the purpose of this Policy, “cheerleading program” shall be Kindergarten through twelfth grade school-sponsored cheerleading programs.

The school district will adopt an Interscholastic Athletic and Cheerleading Head Injury Training Program to be completed by the team or school physician, licensed athletic trainer(s) involved in the interscholastic athletic program, all staff members that coach an interscholastic sport or cheerleading program, designated school nurses, and other appropriate school district personnel as designated by the Superintendent. This Training Program shall be in accordance with guidance provided by the New Jersey Department of Education and the requirements of N.J.S.A. 18A:40-41.2.

The Principal or designee shall distribute the New Jersey Department of Education Concussion and Head Injury Fact Sheet and Parent/Guardian Acknowledgement Form to every student-athlete who participates in interscholastic sports and every cheerleader who participates in a cheerleading program. The Principal or designee shall obtain a signed acknowledgement of the receipt of the Fact Sheet by the student-athlete or cheerleader’s parent and keep on file for future reference.

Prevention of a sports-related concussion and head injuries is an important component of the school district’s program. The school district may require pre-season baseline testing of all student-athletes and cheerleaders before the pupil begins participation in an interscholastic athletic or cheerleading program.

PREVENTION AND TREATMENT OF SPORTS-RELATED CONCUSSIONS AND HEAD

Any student-athlete or cheerleader who exhibits the signs or symptoms of a sports-related concussion or other head injury during practice or competition shall be immediately removed from play and may not return to play that day. Emergency medical assistance shall be contacted when symptoms get worse, loss of consciousness, direct neck pain associated with the injury, or any other sign the supervising school staff member determines emergency medical attention is needed. If available when the student-athlete or cheerleader is exhibiting signs or symptoms, the pupil will be evaluated by the school or team physician. The Principal or designee shall contact the pupil's parent and inform the parent of the suspected sports-related concussion or other head injury.

Possible signs of a concussion can be observed by any school staff member or the school or team physician. Any possible symptoms of a concussion can be reported by the student-athlete or cheerleader to: coaches; licensed athletic trainer; school or team physician; school nurse; and/or parent. The Principal or designee shall provide the student-athlete or cheerleader with Board of Education approved suggestions for management/medical checklist to provide to their parent and physician or other licensed healthcare professional trained in the evaluation and management of sports-related concussions and other head injuries.

A student-athlete or cheerleader who participates in interscholastic athletics or a cheerleading program and who sustains or is suspected of sustaining a concussion or other head injury shall be required to have a medical examination conducted by their physician or licensed health care provider. The pupil's physician or licensed health care provider shall be trained in the evaluation and management of concussion to determine the presence or absence of a sports-related concussion or head injury.

The pupil's physician or licensed health care provider must provide to the school district a written medical release/clearance for the pupil indicating when the pupil is able to return to the activity. The medical release/clearance must indicate the student-athlete or cheerleader is asymptomatic at rest and either may return to the interscholastic athletic activity or cheerleading program because the injury was not a concussion or other head injury or may begin the district's graduated return to competition and practice protocol outlined in Regulation 2431.4. A medical release/clearance not in compliance with this Policy will not be accepted. The medical release/clearance must be reviewed and approved by the school or team physician.

The school district shall provide a copy of this Policy and Regulation 2431.4 to all youth sports team organizations that operate on school grounds. In accordance with the provisions of N.J.S.A. 18A:40-41.5, the school district shall not be liable for the injury or death of a person due to the action or inaction of persons employed by, or under contract with, a youth sports team organization that operates on school grounds, if the youth sports

For the purposes of this Policy a "youth sports team organization" means one or more sports teams organized pursuant to a nonprofit or similar charter or which are member teams in a league organized by or affiliated with a county or municipal recreation department.

This Policy and Regulation shall be reviewed and approved by the school physician and shall be reviewed annually, and updated as necessary, to ensure it reflects the most current information available on the prevention, risk, and treatment of sports-related concussion and other head injuries.

2432 SCHOOL SPONSORED PUBLICATIONS

The Board of Education permits and encourages the preparation and distribution of school sponsored publications under staff direction in order that pupils learn the rights and responsibilities of the press in a free society.

No school sponsored publication may contain materials that:

1. Are grossly prejudicial to an ethnic, national, religious, or racial group or to either gender;
2. Libel any person or persons;
3. Infringe rights of privacy protected by law or regulation;
4. Seek to establish the supremacy of a particular religious denomination, sect, or point of view over any other;
5. Advocate the use or advertise the availability of any substance or material that constitutes a direct and substantial danger to the health of pupils;
6. Contain obscenity or material otherwise deemed to be harmful to impressionable pupils;
7. Incite violence, advocate the use of force, or urge the violation of law or school regulations;

11. Except as may be required for literary purposes, do not conform to acceptable standards of grammar, clear expression, and responsible research.

Issues on which opposing points of view have been responsibly promoted may be introduced in a school sponsored publication provided that all proponents are given an equal opportunity to present their views.

School Sponsored Publications

In order to ascertain that school sponsored publications do not violate the standards established by this policy, the Board requires that each publication be submitted to the Principal for review in advance of its distribution. A publication that contains material in violation of this policy may not be distributed.

Where the Principal cannot show, within two school days, that the publication violates the prohibitions of this policy, the publication must be released for distribution. The Principal's determination, if any, that the publication violates this policy must be supported by references to specific material in the publication. 2435 - NJSIAA RANDOM TESTING FOR INTERSCHOLASTIC ATHLETICS

The Board of Education recognizes the use of harmful performance enhancing substances seriously threatens the health, safety, and welfare of pupil-athletes that participate in interscholastic athletics. This district's secondary school is a member of the New Jersey State Interscholastic Athletic Association (NJSIAA). It is a violation of NJSIAA's sportsmanship rule for any pupil-athlete to possess, ingest, or otherwise use any substance on NJSIAA's list of banned substances, without written prescription by a fully licensed physician, recognized by the American Medical Association, to treat a specific medical condition. Therefore, NJSIAA, in accordance with Executive Order 72, will test a random selection of pupil-athletes who have qualified, as individuals or as members of a team, for NJSIAA sanctioned State championship competition.

The list of banned substances, for the purposes of this Policy, shall be prepared and published by NJSIAA. Before participating in interscholastic sports, the pupil-athlete and their parent or guardian shall consent to random testing in accordance with NJSIAA's Steroid Testing Policy by completing and submitting to the school district NJSIAA's Consent To Random Testing Form. NJSIAA's list of banned substances shall be attached to the consent form and the consent form must be signed each school year. The failure to sign the consent form shall render the pupil-athlete ineligible to participate in all interscholastic sports until the form is signed. The signed Consent To Random Testing Forms shall be maintained in the Building Principal's office.

Pupil-athletes will be selected to be tested on a random basis from all athletes participating in championship competition in accordance with NJSIAA procedures. The test will analyze a urine sample. The methodology for taking and handling samples shall be in accordance with current legal standards and tests shall be administered by a certified laboratory designated by NJSIAA. No test shall be considered a positive result unless the approved laboratory reports a positive result and NJSIAA's medical review officer confirms there was no medical reason for the positive result. The sample will be split when taken and shall be available in the event of an appeal. A positive test result may be appealed in accordance with NJSIAA's appeal procedures. Results of all tests shall be considered confidential and shall only be disclosed to the individual, his or her parent(s) or legal guardian(s), and his or her school.

Any such person shall also forfeit any individual honor earned while in violation. No person who tests positive, refuses to provide a sample, or who reports his or own violation shall resume eligibility until he or she has undergone counseling and produced a negative test result. 2451 ADULT HIGH SCHOOL

The Board of Education determines that a need exists in the community for the provision of educational services that will enable out-of-school adults to qualify for a state-endorsed high school diploma issued by the Board. The purpose of this program is to provide comprehensive life-long learning opportunities for adults. Accordingly, the Board directs the establishment and implementation of a state-approved adult high school in Passaic County Technical Institute Adult High School in accordance with rules of the State Board of Education.

Eligibility

A person is eligible for enrollment in the adult high school education program who is a New Jersey resident; is out of school; is sixteen or seventeen years of age and approved for enrollment in accordance with N.J.A.C. 6:30-1.2(b) or is eighteen years of age or older; has not earned a locally-issued, State-endorsed high school diploma; and has filed with the program director an enrollment application and a signed statement of responsibilities. In addition, New Jersey residents who are at least sixteen years of age and no longer enrolled in a regular high school may be admitted on a space-available basis and with the approval of the Superintendents of this and the sending district, to courses not available in the high school in which they are regularly enrolled.

Courses of Study

The adult high school program will offer adults opportunity, accessibility, and flexibility while maintaining the high standards inherent in the awarding of a high school diploma. The Board will annually adopt a program of studies for the adult high school, including descriptions of each course offered. Courses will be sufficiently varied to meet the educational needs of adults, will be designed to challenge participants to achieve their highest level of educational ability, and will include, as a minimum, the state mandated courses required for high school graduation and remedial courses for pupils unable to demonstrate basic skills mastery. For each pupil, in an adult high school program, an educational plan shall be developed reflecting the pupil's past academic record, an analysis of past experiences for which credit may be awarded, graduation requirements, and a proposed schedule of courses for the current school year leading to the completion of the requirements for graduation.

Proficiencies established for adult high school courses must equal or exceed proficiencies established for similarly titled courses in the high school. Adult school courses may be traditional or flexible; traditional courses will be conducted in classroom sessions of the required length, and flexible courses shall require biweekly meetings for the review of projects and activities.

Equal Opportunity

All adult high school pupils will be offered equal educational opportunities, regardless of the pupil's race, color, creed, religion, national origin, ancestry, age, marital status, affectational or sexual orientation or sex, social or economic status, or disability. Adult high school pupils who have limited English language proficiency and/or disabilities will be offered educational opportunities and services in accordance with N.J.A.C. 6:30-3.5.

Graduation Requirements

To qualify for a high school diploma, an adult high school pupil must meet the graduation requirements established by Policy No. 5460 for the regular high school, except that no more than fifteen credits may be in physical education and at least ten credits must have been earned in course work taken in the adult high school. The adult high school shall establish minimum curriculum requirements for graduation which meet the minimum requirements of the district's regular high school and in accordance with N.J.A.C. 6:30-3.7(c). Adult high school pupils must pass the state assessment test. Pupils entering the adult high school will be provided with the graduation requirements and each pupil enrolled in a course will be provided with a list of the proficiencies required for the course. A comprehensive written examination will be administered in each course except courses in the fine, practical, or performing arts. Adult high school pupils who enter and make continuous progress toward completion are held accountable for the statewide assessment in effect at the time they meet all other graduation requirements.

Course Credit

The Board of Education will annually adopt policies at a public Board meeting which provide for the awarding of credit in accordance with N.J.A.C. 6:30-3.8. Adult high school course credit will be given for the successful completion of courses of study taken in the adult high school, in accredited high schools and institutions, and in accredited colleges. Experiences in proprietary or public vocational training programs will be assessed in terms of proficiencies for adult high school courses offering similar experiences. Five adult high school credits will be awarded for each course meeting two semesters or one year. Credits may be prorated for courses meeting shorter periods of time. Credit will be transferred to the adult high school only on receipt of an official transcript from the institution in which they were earned.

Credit will be awarded for secondary coursework in a foreign institution only when the transcript has been approved by the Department of Education.

The adult high school shall award credit in accordance with N.J.A.C. 6:30-3.8. Credit may be awarded for properly verified work experience, apprenticeship training, physical education and basic military training. Credit may also be awarded in health and safety for the possession of a valid New Jersey driver's license, possession of a current occupational license issued by a New Jersey agency, on-the-job training and advanced military training. Credit may also be awarded for passing a comprehensive examination in a course of study, remedial communication or computation coursework, and coursework in English as a second language, in accordance with N.J.A.C. 6:30-3.9.

Staffing

Teaching staff members appointed to the adult high school shall be appropriately certified for the positions they hold. Work schedules shall be prepared so as to make staff members available for consultation with adult pupils. Staff members will be regularly evaluated and will receive orientation and in-service training. Persons involved in adult advisement shall be certified as either Principal, supervisor, counselor or teacher. All titles in the high school program shall be recognized in N.J.A.C. 6:11-3.1.

Attendance Records

Records will be compiled and maintained in accordance with Board Policy No. 8330 and State Board of Education rules governing pupil records and with law and State Board rules governing financial records. An attendance register will be maintained on a daily basis indicating the number of hours of program participation and shall be submitted to the Department of Education on an annual basis. An adult participating in a learning experience of less than one full hour is not considered as having attended that scheduled session.

Financial Records

Financial records will be maintained in appropriate accounts pursuant to N.J.A.C. 6:20. Adult high school opportunities shall be offered free of tuition, fees or other charges, including the cost of books and other instructional material except for transcript evaluation fees payable to the Bureau of Adult Education and Literacy.

Community Involvement

The community will be adequately informed of the availability of the adult high school program and of the Board's policy of equal educational opportunity. 2631 NEW JERSEY QUALITY SINGLE ACCOUNTABILITY CONTINUUM
(QSAC)

The Board of Education and Superintendent of Schools will work with the New Jersey Department of Education to comply with the requirements of the New Jersey Quality Single Accountability Continuum (QSAC) system in accordance with the provisions of N.J.A.C. 6A:30-1.1 et seq. QSAC is the New Jersey Department of Education monitoring and evaluating system for public school districts. Public school districts in New Jersey are evaluated in five key component areas of school effectiveness – instruction and program, personnel, fiscal management, operations, and governance – to determine the extent to which the school district is providing a thorough and efficient education.

Weighted quality performance indicators established by the Department of Education shall be used by the Commissioner of Education to assess school district performance and capacity during the comprehensive reviews pursuant to N.J.A.C. 6A:30-3.1 through 3.4, the in-depth evaluation pursuant to N.J.A.C. 6A:30-5.3, and monitoring of an approved QSAC district improvement plan pursuant to N.J.A.C. 6A:30-5.6. The weighted quality performance indicators shall also be used by the Commissioner in determining whether to initiate intervention activities pursuant to N.J.A.C. 6A:30-6.2, withdrawal from intervention pursuant to N.J.A.C. 6A:30-7.1, and initial placement of Level II, Level III, and State-Operated School Districts on the performance continuum pursuant to N.J.A.C. 6A:30-8.3.

The Commissioner shall conduct a comprehensive review of each public school district every three years. In the intervening years, the Commissioner shall assess the school district's performance to determine whether conditions exist in the school district that significantly and negatively impact the educational program or operations of the school district.

The Superintendent shall be responsible for completing the District Performance Review in accordance with the requirements as outlined in N.J.A.C. 6A:30-3.2. The District Performance Review and a Statement of Assurance prepared in accordance with N.J.A.C. 6A:30-3.2(e) shall be approved by the Board of Education by resolution and submitted to the County Superintendent of Schools in accordance with the provisions of N.J.A.C. 6A:30-3.2(f) and (g). The district's District Performance Review and the Statement of Assurance will be reviewed and evaluated in accordance with the requirements of N.J.A.C. 6A:30-3.3. The Commissioner shall issue a final determination of the school district's performance and initial placement on the performance continuum in accordance with N.J.A.C. 6A:30-4.1.

The district will be required to commence improvement activities as set forth in N.J.A.C. 6A:30-5.3 through 5.7 in the event it satisfies less than eighty percent of the weighted quality performance indicators in one or more key components of school district effectiveness. Where appropriate, pursuant to the factors as outlined in N.J.A.C. 6A:30-6.2, the Commissioner may seek forms of partial or full intervention in a school district as outlined in N.J.A.C. 6A:30-6.1 et seq. Withdrawal from partial or full State intervention shall be in accordance with the provisions of N.J.A.C. 6A:30-7 et seq.

No provision of N.J.A.C. 6A:30 – Evaluation of the Performance of School Districts, shall limit the ability of the Department to monitor public school districts’ practices by, among other things, conducting on-site visits to observe instructional practices and school facilities or take other such action as in the judgment of the Commissioner or his/her designee that may be warranted to ensure the satisfaction of any statutory or constitutional obligation.
